Unit 1

Life Science

Seasons

Big Changes

New Words

Track 02

Listen and repeat the words.

bare

hibernate

warm

lay

hunt

turn

Think & Say!

- What season is it in the picture?
- How do you know?

Track 03

Big Changes

The air is cold in winter. Many trees are **bare**. Snow covers the ground. Bears **hibernate**.

Spring comes after winter. The air gets **warm**. Trees grow new leaves. Bears have their new cubs. Frogs **lay** eggs in ponds.

**Word
Hunt**

What is a baby bear called?
_____ (b-c-u)

Read & Say!

- Which season comes after spring?
- What do some birds do in fall?

The air starts to get hot. Summer is here. Some trees grow fruit. Bears **hunt** for food.

The air gets cool. Fall is here. Many trees **turn** red, yellow, and brown. Some birds move to warmer places. Bears eat a lot for hibernation.

Winter comes back again.

You Know What?

Ladybugs and hedgehogs hibernate in winter, too!

Word Study

Choose and write the correct words.

What Animals Do

 <p>Winter</p> <p>_____</p>	 <p>Spring</p> <p>_____ eggs</p>
 <p>Summer</p> <p>_____ for food</p>	 <p>Fall</p> <p>_____ to warmer places</p>

Word Box

move
hibernate
lay
hunt
