1 What's in the solar system?

The solar system,
moon and planets

Page 6

2 What's on the Earth's surface?

Landscapes and
landforms

Page 18

3 What types of weather are there?

Weather

Page 32

4 What do maps tell us?

Maps, continents
and countries

Page 44

5 What do we know about Spain?

Historical events, festivals,
famous artists

Page 58

6 Why is history important?

Journey through
time

Page 70

- Introduction to the course characters

- The solar system
- The sun

- The phases of the moon
- Day and night

- Inland and coastal features
- Peninsulas, archipelagos and islands

- Natural and artificial features
- The Earth's resources

- Types of weather
- Water cycle and rain

- Weather measurement tools
- Weather forecasts

- Maps, continents and countries
- Political and physical maps

- Map keys
- Map scales

- The capital city
- Famous celebrations

- Famous artists
- Road signs

- Measuring time, calendars
- Museums

- Important people in history
- Protecting our past

Our Project 1:
Respect wild animals!
pp 30–31

Our Project 2:
Where I live pp 56–57

Our Project 3:
Famous Spanish
people pp 82–83

Let's
review ...

Page 84

HERE WE GO AGAIN!

I like the solar system.

Little Hubble

I like painting landscapes.

Little Van Gogh

I like different kinds of weather.

Little Dalton

I like travelling and exploring countries.

Little Bird

I like writing about my country.

Little Cervantes

I like working for women's rights.

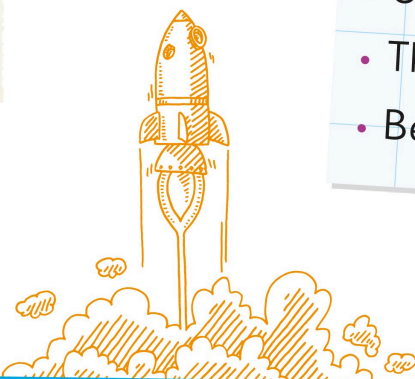

Little Campoamor

Let's explore:

- Observe the world around you.
- Think about things you can do.
- Be kind and make a difference, too.

My passport

Put your fingerprint here when you complete a unit.

Name:

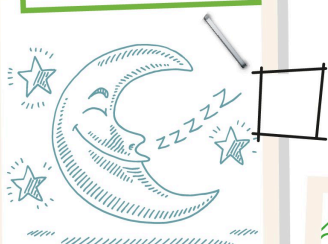

Age:

Country:

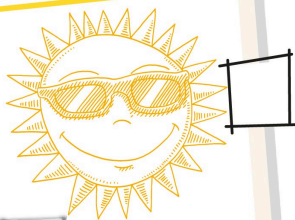

Welcome Unit	Unit 1	Unit 2	Unit 3	Unit 4	Unit 5	Unit 6
--------------	--------	--------	--------	--------	--------	--------

What do you like? Tick (✓).

the moon and planets

the weather

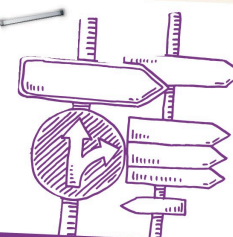

countries

landscapes

maps

communities and road signs

1

WHAT'S IN THE SOLAR SYSTEM?

What can you see?

Why do we have day and night?

Mindful

Let's observe.

time

Song

The planet song

I'm an astronomer.

Why does the moon change shape?

DOCUMENTARY

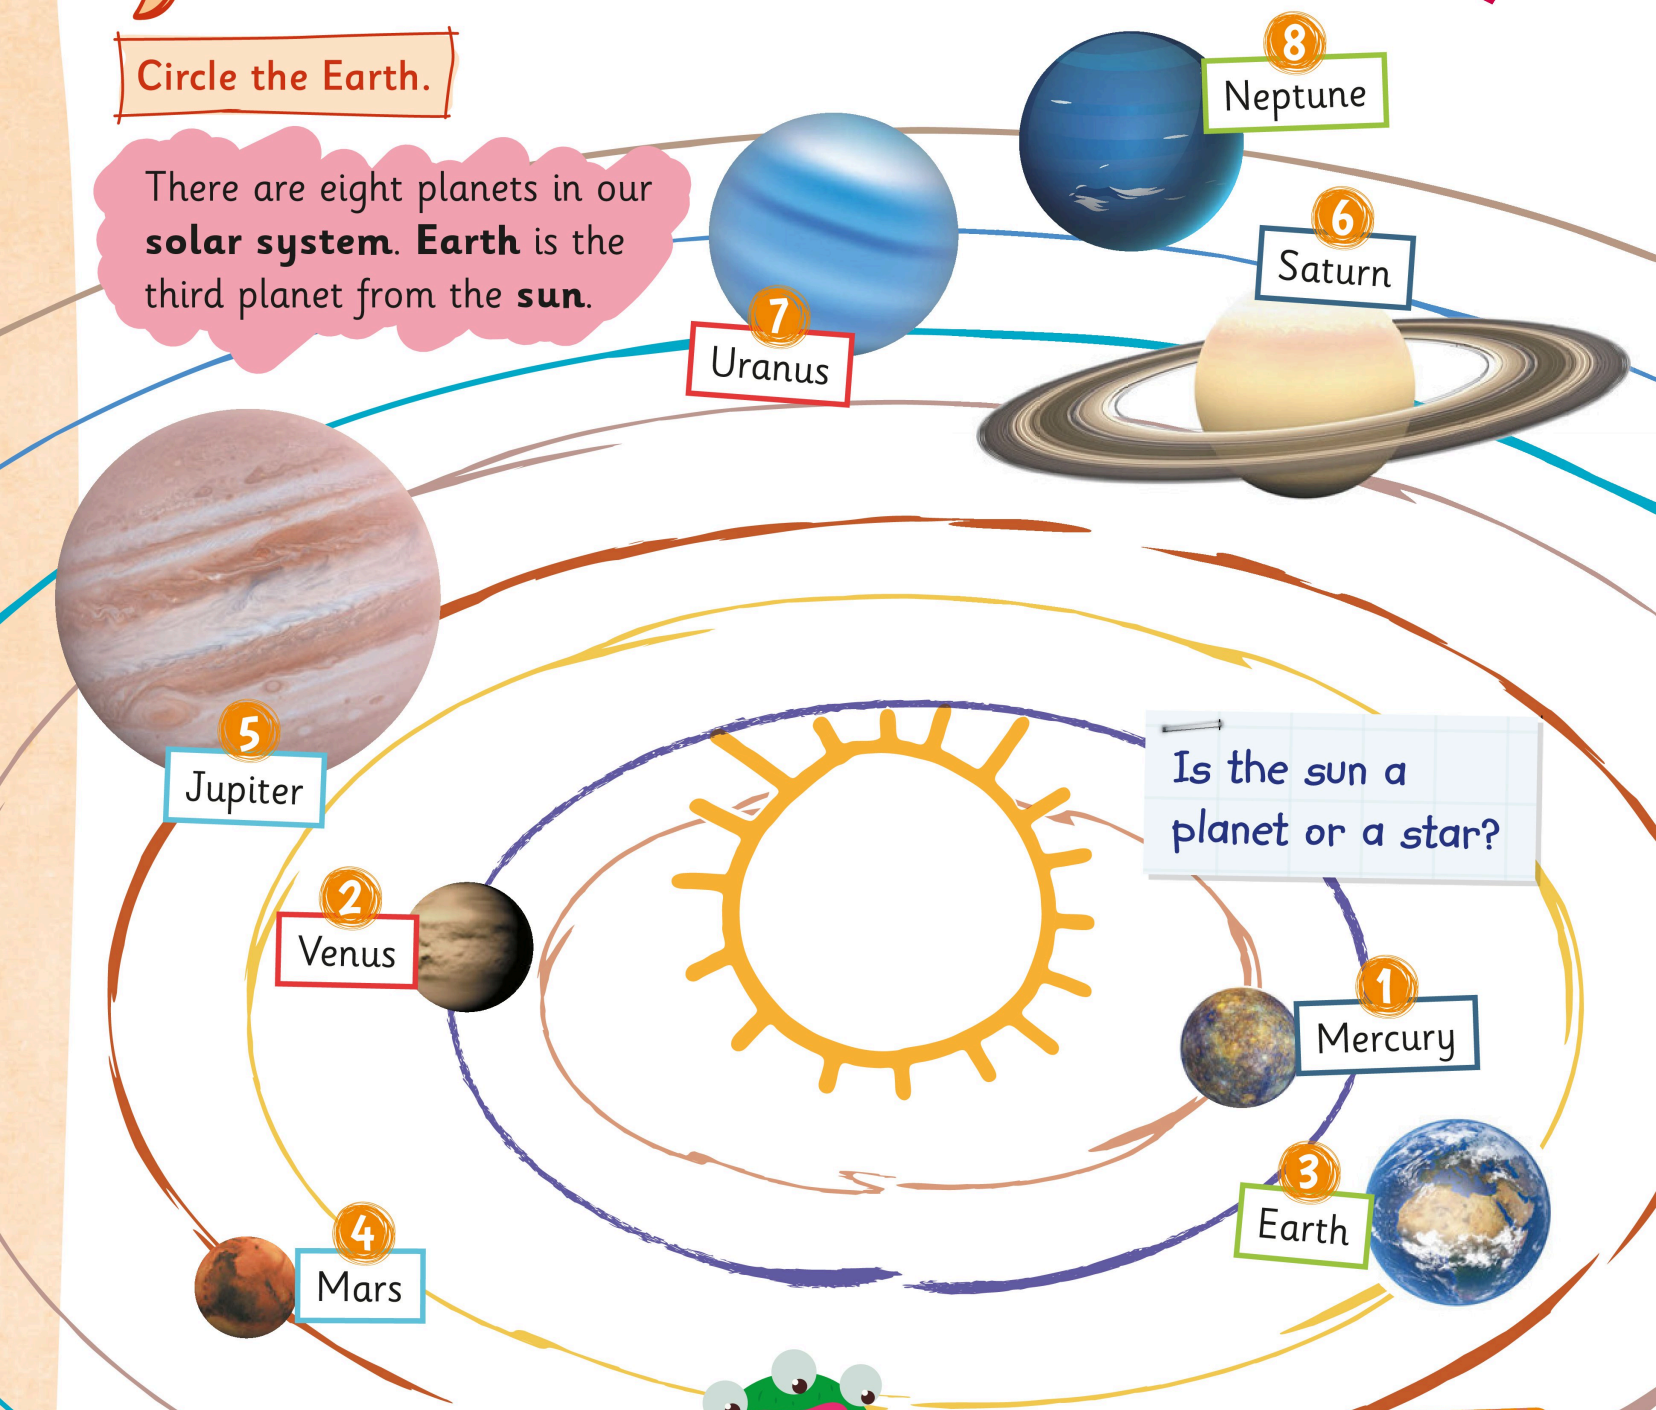

Phases of the moon

HOW MANY PLANETS ARE THERE?

Find
out

Circle the Earth.

There are eight planets in our **solar system**. **Earth** is the third planet from the **sun**.

Is the sun a
planet or a star?

FUN FACT

We can remember the names of the planets with this sentence:

My **V**ery **E**normous **M**onster
Just **S**erved **U**s **N**achos.

Let's make the planets.

- 1 Observe the shape and colour of the planets. Make the planets with modelling clay.

- 2 Put the planets in the correct position around the sun on black card.

Talk about the planets!

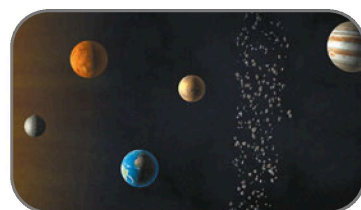

What have I learnt?

There are eight _____ in our solar system.
The sun is a _____. The _____ is the
third planet from the _____.

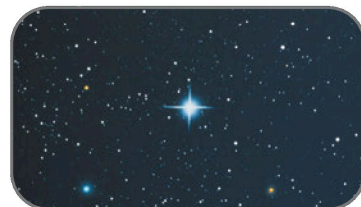

MY DICTIONARY

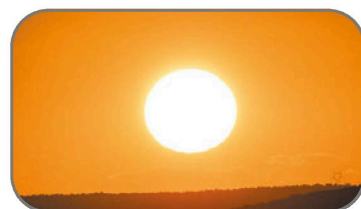

Earth

planets

star

sun
