THE CHALLENGE

Nothing should stop young people doing the sport they want to.

You will:

- **Stage 1 Think:** find out what stops some teenagers doing sport.
- **Stage 2 Prepare:** decide on one group of teenagers you would like to help.
- **Stage 3 Develop:** plan how you can help them.
- **Stage 4 Present:** present your solution.

1 Look at the photo. In pairs, discuss the questions.

- 1 What do you think is interesting about this photo?

VOCABULARY

SPORTS

- 1  1.1 Go to the digital activity and match the sports to the photos. Listen, check and repeat.

athletics diving gymnastics handball
horse riding ice hockey jogging
paddle boarding parkour roller skating
windsurfing yoga

- 2  **PRONUNCIATION** Go to the digital pronunciation activity.
- 3  **Creative Thinking** Look at the reasons people give for not doing sport. Match the reasons (1–4) to the problems (a–d).

1 The sports club is in an old building with stairs and very small changing rooms. I can't use it.

2 The rugby club and the football club are for boys, and I'm just not interested in ice skating and gymnastics.

3 I don't think I could be successful at water sports. No one who looks like me does those kinds of sports.

4 How could I learn windsurfing? Lessons are expensive, the equipment is expensive ...

- a clubs only for girls, or only for boys
- b no role models
- c not enough money
- d no facilities for people with disabilities

- 4 Work in groups and discuss the sports in Exercise 1. Can everyone do all of them? If not, what stops some people doing some of them? For example, is a sport very expensive or 'only for girls'?
- 5 Complete the table with the sports in Exercise 1. Can you add any more sports?

play (We use <i>play</i> with team sports and sports with a ball.)	handball
go (We use <i>go</i> with verb + <i>-ing</i> .)	diving
do (We use <i>do</i> with other sports and activities.)	athletics

- 6 Ask questions to find out what sports other people in your class do.

Do you go jogging?

Do you do yoga?

Do you play ...?

Yes, I do.

I sometimes ...

Yes, I like it.

I'm good at it.

No, I don't do that.

It's too ...

- 7 What are the three most common sports in your class? In groups, discuss why you think these sports are the most popular.

The most popular sport in my class is swimming.

Why do you think swimming is so popular?

Because we have a really good swimming pool near our school!

► Vocabulary reference page 16

STRETCH! Do you or your friends enjoy any sports that are not on this page? Use an online dictionary to find the English words for other sports that you want to talk about. Do we use *play*, *go* or *do* with the sports?

CHALLENGE

Prepare

- 1 Form groups of three or four people.
- 2 Share your notes from Stage 1.
- 3 Decide on one group of teenagers you would like to help.
- 4 Each person in your group will start looking for information on how to help this group of teenagers. Decide where you can find information and then start your research.

READING

SHORT TEXTS

- 1 What new sports or activities would you like to try? Why? Tell a partner.
- 2 Read the text. Complete the gaps (1–5) with the words in the box. There is one extra word you do not need to use.

HOW IS UNIT 1 SO FAR?

SPORT ON THE SOFA

OUR IDEAS ABOUT SPORT ARE **CHANGING**

What exactly is a sport? It's not an easy question to answer. Sports usually happen outside the home, on a court, a pitch or a track, or at the gym. You might need equipment, like a racket or a helmet. You can't do a sport sitting on your sofa. Or can you? Well, maybe you can if you're playing an e-sport!

People playing a computer game at home, even if they are playing against other people, are usually called *gamers*, not *e-sportspeople*. However, many popular games are now played at a professional level, with huge audiences. Then, they are called *e-sports*.

In fact, there are many good reasons to think of these games as sports. Competitors can play in teams and there are big prizes for champions. It is now possible to get a good job as an e-sports coach. Players need to be extremely fast and must be able

to concentrate for a long time. Games are often very long, so you have to be fit if you want to play at a high level. You're not running or swimming or cycling, but your body and your mind always need to be active.

The idea of e-sports is new and some people don't agree that it's a good thing, especially some parents of teenage gamers. They'd like their children to go out and kick a real ball into a real net. However, chess is called a sport by the International Olympic Committee, so why not e-sports? But don't forget, if e-sports are your thing, then it's important to sometimes get exercise outside, too!

 - 1 Everyone knows what the word 'sport' means. *That's false. The writer says ...*
 - 2 Gamers are not always *e-sportspeople*.

 - 4 Working as an e-sports coach is now a real career option.
