# Scope and Sequence

Unit	Theme	Grammar	Topics	Avoid Common Mistakes
<b>PART 1</b>	<b>Social Responsibility</b>	<b>Cause and Effect</b>		
UNIT 1 page 2	Cause and Effect 1: The Environment and You	Sentence Structure; Common Patterns with Nouns That Show Cause	Sentence Structure: Simple and Compound Sentences (p. 4) Complex Sentences (p. 8) Common Patterns with Nouns That Show Cause (p. 11)	Avoiding fragments; avoiding <i>cuz</i> and <i>coz</i> in written academic English; avoiding beginning sentences with <i>and</i> in written academic English
UNIT 2 page 16	Cause and Effect 2: Consumer Behavior	Subordinators and Prepositions That Show Cause; Transition Words and Common Patterns with Nouns That Show Effect	Subordinators and Prepositions That Show Cause, Reason, or Purpose (p. 18) Transition Words and Phrases That Show Effect (p. 21) Common Patterns with Nouns That Show Effect (p. 24)	Remembering the correct preposition in expressions with <i>cause</i> , <i>result</i> , and <i>effect</i> ; remembering <i>of</i> in <i>because of</i>
UNIT 3 page 28	Cause and Effect 3: Social Responsibility	Real and Unreal Conditionals; Common Phrases with <i>If</i> and <i>Unless</i>	Present and Future Real Conditionals (p. 30) Present and Future Unreal Conditionals (p. 34) Common Phrases with <i>Unless</i> and <i>If</i> (p. 37)	Remembering the base form of the verb following a modal; remembering the correct form of the modal in real and unreal conditionals
UNIT 4 page 40	Cause and Effect 4: Alternative Energy Sources	-ing Participle Phrases and Verbs That Show Cause and Effect	-ing Participle Phrases That Show Effect (p. 42) -ing Participle Phrases That Show Cause (p. 44) Verbs That Show Cause and Effect (p. 46)	Remembering to use <i>result in</i> and <i>result from</i> correctly; remembering subject-verb agreement with <i>contribute to</i>

Unit	Theme	Grammar	Topics	Avoid Common Mistakes
<b>PART 2</b>	<b>Human Behavior</b>	<b>Comparison and Contrast</b>		
UNIT 5 page 50	Comparison and Contrast 1: Family Size and Personality	Identifying Relative Clauses; Comparatives with As . . . As; Common Patterns That Show Contrast	Identifying Relative Clauses (p. 52) Comparatives with As . . . As (p. 56) Common Patterns That Show Contrast (p. 59)	Avoiding omitting the relative pronoun in subject relative clauses; avoiding <i>the same than</i>
UNIT 6 page 62	Comparison and Contrast 2: Men, Women, and Equality	Complex Noun Phrases; Parallel Structure; Common Quantifiers	Complex Noun Phrases (p. 64) Parallel Structure (p. 67) Common Quantifiers (p. 70)	Remembering parallel structure
UNIT 7 page 74	Comparison and Contrast 3: Family Values in Different Cultures	Comparative and Superlative Adjectives and Adverbs; Articles; Common Expressions That Show Similarity	Comparative and Superlative Adjectives and Adverbs (p. 76) Articles (p. 81) Common Expressions That Show Similarity (p. 85)	Avoiding using both <i>more</i> and <i>-er</i> in comparisons; avoiding using <i>most</i> before nouns; remembering <i>the</i> in <i>the same as</i>
UNIT 8 page 88	Comparison and Contrast 4: Intercultural Communication	Adverb Clauses of Contrast and Concession; Transition Words and Phrases That Show Contrast and Concession	Adverb Clauses of Contrast and Concession (p. 90) Transition Words and Phrases That Show Contrast and Concession (p. 93)	Avoiding <i>another</i> in <i>on the other hand</i> ; avoiding <i>but</i> in sentences with adverb clauses of concession
<b>PART 3</b>	<b>Society and Culture</b>	<b>Narrative</b>		
UNIT 9 page 98	Narrative 1: The American Dream	Past Perfect; Past Modals; Common Time Clauses	Past Perfect and Past Perfect Progressive (p. 100) Past Modals and Modal-like Expressions (p. 103) Common Time Clauses (p. 107)	Remembering to use the past participle with the past perfect
UNIT 10 page 112	Narrative 2: Immigration	Demonstratives; Common Time Signals	Demonstratives (p. 114) Common Time Signals (p. 117)	Remembering to use <i>this/that</i> with singular nouns and <i>these/those</i> with plural nouns

Unit	Theme	Grammar	Topics	Avoid Common Mistakes
<b>PART 4</b>	<b>Business</b>	<b>Classification and Definition</b>		
UNIT 11 page 122	Classification and Definition 1: Job Interviews	The Passive; Common Words and Phrases Used to Classify	The Passive (p. 124) Common Words and Phrases Used in Classification Writing (p. 128)	Remembering to put the adverb after the modal in passive sentences
UNIT 12 page 134	Classification and Definition 2: Your Ideal Job	The Language of Definition; Appositives	The Language of Definition (p. 136) Appositives (p. 139)	Remembering to use the correct form in definitions; remembering to use <i>who</i> only with animate nouns
<b>PART 5</b>	<b>Nutrition and Health</b>	<b>Problem–Solution</b>		
UNIT 13 page 144	Problem–Solution 1: Food and Technology	Present Perfect and Present Perfect Progressive; Noun Phrase Structures	Present Perfect and Present Perfect Progressive (p. 146) Common Noun Phrase Structures (p. 150)	Avoiding the plural with noncount nouns; avoiding <i>this</i> in <i>the fact that</i>
UNIT 14 page 156	Problem–Solution 2: Children and Health	Reporting Verbs; Adverb Clauses and Phrases with <i>As</i> ; Vocabulary for Describing Information in Graphics	Reporting Verbs (p. 158) Adverb Clauses and Phrases with <i>As</i> (p. 161) Common Vocabulary for Describing Information in Graphics (p. 164)	Remembering to use the base form of <i>be</i> after modals in the passive
UNIT 15 page 168	Problem–Solution 3: Health and Technology	Adverb Clauses and Infinitives of Purpose; Reduced Adverb Clauses; Vocabulary to Describe Problems and Solutions	Adverb Clauses of Purpose and Infinitives of Purpose (p. 170) Reducing Adverb Clauses to Phrases (p. 174) Common Vocabulary to Describe Problems and Solutions (p. 177)	Avoiding the plural with <i>for example</i> ; avoiding a comma before <i>so that</i>
UNIT 16 page 182	Problem–Solution 4: Leading a Healthy Life	<i>It</i> Constructions; Transition Words to Indicate Steps of a Solution	<i>It</i> Constructions (p. 184) Common Transition Words to Indicate Steps of a Solution (p. 189)	Remembering <i>to</i> or <i>for</i> after <i>impossible</i> ; avoiding <i>than</i> to introduce next steps

Unit	Theme	Grammar	Topics	Avoid Common Mistakes
<b>PART 6</b>	<b>Social Issues and Technology</b>	<b>Summary–Response and Persuasion</b>		
UNIT 17 page 194	Summary–Response: Privacy in the Digital Age	Past Unreal Conditionals; Phrases Used in Summary–Response Writing	Past Unreal Conditionals (p. 196) Common Phrases Used in Summary–Response Writing (p. 200)	Remembering to use the past participle after modals in past unreal conditionals
UNIT 18 page 204	Persuasion 1: Violence in the Media	Nonidentifying Relative Clauses; Phrases That Limit Overgeneralization	Nonidentifying Relative Clauses (p. 206) Phrases That Limit Overgeneralization (p. 210)	Remembering the relative pronoun in nonidentifying relative clauses; avoiding <i>that</i> in nonidentifying relative clauses
UNIT 19 page 214	Persuasion 2: Living in an Age of Information Overload	Noun Clauses with <i>Wh-</i> Words and <i>If / Whether</i> ; Phrases for Argumentation	Noun Clauses with <i>Wh-</i> Words and <i>If / Whether</i> (p. 216) Phrases for Argumentation (p. 219)	Avoiding <i>whether</i> to express a condition; remembering to spell <i>whether</i> correctly
UNIT 20 page 224	Persuasion 3: Social Media	Expressing Future Actions; Common Words and Phrases in Persuasive Writing	Expressing Future Actions (p. 226) Common Words and Phrases in Persuasive Writing (p. 230)	Remembering when to use the noun or verb forms of <i>claim</i> and <i>argue</i> ; avoiding <i>according for</i> and <i>according with</i>

# Introduction to Grammar and Beyond *Essentials*

*Grammar and Beyond Essentials* is a research-based and content-rich grammar series for beginning to advanced-level students. The series focuses on the most commonly used English grammar structures and practices all four skills in a variety of authentic and communicative contexts. It is designed for use both in the classroom and as a self-study learning tool.

## *Grammar and Beyond Essentials* is Research-Based

The grammar presented in this series is informed by years of research on the grammar of written and spoken English as it is used in college lectures, textbooks, academic essays, high school classrooms, and conversations between instructors and students. This research, and the analysis of over one billion words of authentic written and spoken language data known as the *Cambridge International Corpus*, has enabled the authors to:

- Present grammar rules that accurately represent how English is actually spoken and written
- Identify and teach differences between the grammar of written and spoken English
- Focus more attention on the structures that are commonly used, and less on those that are rarely used, in writing and speaking
- Help students avoid the most common mistakes that English language learners make
- Choose reading topics that will naturally elicit examples of the target grammar structure
- Introduce important vocabulary from the Academic Word List

# Special Features of *Grammar and Beyond Essentials*

## Realistic Grammar Presentations

Grammar is presented in clear and simple charts. The grammar points presented in these charts have been tested against real-world data from the *Cambridge International Corpus* to ensure that they are authentic representations of actual use of English.

## Data from the Real World

Many of the grammar presentations and application sections include a feature called Data from the Real World. Concrete and useful points discovered through analysis of corpus data are presented and practiced in exercises that follow.

## Avoid Common Mistakes

Each unit features an Avoid Common Mistakes section that develops students' awareness of the most common mistakes made by English language learners and gives them an opportunity to practice detecting and correcting these errors. This section helps students avoid these mistakes in their own work. The mistakes highlighted in this section are drawn from a body of authentic data on learner English known as the *Cambridge Learner Corpus*, a database of over 35 million words from student essays written by non-native speakers of English and information from experienced classroom teachers.

## Academic Vocabulary

Every unit in *Grammar and Beyond Essentials* includes words from the Academic Word List (AWL), a research-based list of words and word families that appear with high frequency in English-language academic texts. These words are introduced in the opening text of the unit, recycled in the charts and exercises, and used to support the theme throughout the unit. By the time students finish each level, they will have been exposed several times to a carefully selected set of level-appropriate AWL words, as well as content words from a variety of academic disciplines.

# Series Levels

The following table provides a general idea of the difficulty of the material at each level of *Grammar and Beyond Essentials*. These are not meant to be interpreted as precise correlations.

	Description	TOEFL IBT	CEFR Levels
Level 1	Beginning	20 – 34	A1 – A2
Level 2	Low Intermediate to Intermediate	35 – 54	A2 – B1
Level 3	High Intermediate	55 – 74	B1 – B2
Level 4	Advanced	75 – 95	B2 – C1

## Student Components

### Student's Book with Online Workbook

Levels 1 through 3 teach all of the grammar points appropriate at each level in short, manageable cycles of presentation and practice organized around a high-interest unit theme. Level 4 focuses on the structure of the academic essay in addition to the grammar rules, conventions, and structures that students need to master in order to be successful college writers. Please see the Tour of a Unit on pages xvi–xix for a more detailed view of the contents and structure of the units.

### Online Workbook

The Online Workbook provides extra practice to help you master each grammar point. Automatically-graded exercises give immediate feedback. Each unit offers practice correcting the errors highlighted in the Avoid Common Mistakes section in the Student's Book. Self-Assessment sections at the end of each unit allow students to test their mastery of what they learned. Look for  in the Student's Book to see where additional online practice is available.

### Quiz Your English app

Quiz Your English is a fun new way to practice, improve, and test your English by competing against learners from all around the world. Learn English grammar with friends, discover new English words, and test yourself in a truly global environment.

- Learn to avoid common mistakes with a special section just for *Grammar and Beyond Essentials* users
- Challenge your friends and players wherever they are
- Watch where you are on the leaderboards

# Teacher Resources

*Grammar and Beyond Essentials* offers a variety of downloadable resources for instructors on eSource: [esource.cambridge.org](http://esource.cambridge.org). Contact your Cambridge ESL Specialist ([www.cambridge.org/cambridgeenglish/contact](http://www.cambridge.org/cambridgeenglish/contact)) to find out how to access the site.

## Teacher's Manual

- Suggestions for applying the target grammar to all four major skill areas, helping instructors facilitate dynamic and comprehensive grammar classes
- An answer key and audio script for the Student's Book
- Teaching tips, to help instructors plan their lessons
- Downloadable communicative activities to add more in-class speaking practice

## Assessment

- Placement Test
- Ready-made, easy-to-score Unit Tests, Midterms, and Final in .pdf and .doc formats
- Answer Key

## Presentation Plus

Presentation Plus allows teachers to digitally project the contents of the Student's Books in front of the class for a livelier, interactive classroom. It is a complete solution for teachers because it includes the answer keys and audio.

## Lesson Mapping Guides

*Grammar and Beyond Essentials* is designed to be used easily alongside academic English titles from Cambridge University Press. These include: *Academic Encounters*, *Final Draft*, *Making Connections*, *Prism*, and *Prism Reading*. Visit [www.cambridge.org/essentials/LessonMaps](http://www.cambridge.org/essentials/LessonMaps) to download a Lesson Mapping Guide for each title.

# About the Authors

John D. Bunting is a Senior Lecturer in the Intensive English Program in the Department of Applied Linguistics & ESL at Georgia State University. Prior to this, John taught EFL in Venezuela. He wrote *College Vocabulary 4* (Cengage, 2006) and worked on a revision of *Vocabulary in Use High Intermediate* (Cambridge, 2010). His research interests are corpus linguistics, vocabulary, academic writing, technology in language learning, and teacher education.

Luciana Diniz is the ESOL Department Chair at Portland Community College and an instructor. She has an MA and a PhD in Applied Linguistics from Georgia State University, and she has been teaching EFL/ESL for nearly 15 years. Luciana's research interests focus on the use of corpus linguistics in vocabulary and grammar teaching/learning. She has presented a number of papers at national and international conferences.

Randi Reppen is Professor of Applied Linguistics and TESL at Northern Arizona University (NAU) in Flagstaff, Arizona. She has over 20 years' experience teaching ESL students and training ESL teachers, including 11 years as the Director of NAU's Program in Intensive English. Randi's research interests focus on the use of corpora for language teaching and materials development. In addition to numerous academic articles and books, she is the author of *Using Corpora in the Language Classroom* and a co-author of *Basic Vocabulary in Use*, 2nd edition, both published by Cambridge University Press.

## Advisory Panel

The ESL advisory panel has helped to guide the development of this series and provided invaluable information about the needs of ESL students and teachers in high schools, colleges, universities, and private language schools throughout North America.

# Tour of a Unit

## GRAMMAR IN THE REAL WORLD

presents the unit's grammar in a realistic context using contemporary texts.

UNIT

5

### Comparison and Contrast 1: Identifying Relative Clauses; Comparatives with *As . . . As*; Common Patterns That Show Contrast

#### Family Size and Personality

#### 1 Grammar in the Real World

You will read an essay that discusses how a child's birth order in the family – being the oldest child, middle child, youngest child, or an only child – may affect his or her personality as an adult. The essay is an example of a type of comparison and contrast writing in which the ideas are organized using the block method.

**A Before You Read** How many siblings (brothers and sisters) do you have? Do you think that some of their personality traits come from the order of their birth? Read the essay. How strong are the effects of birth order, according to the information in the essay?

**B Comprehension Check** Answer the questions.

- 1 How are former presidents Jimmy Carter, George W. Bush, and Barack Obama connected to the main idea of the text?
- 2 According to the writer, why are firstborn children usually more ambitious than their siblings?
- 3 Which of the different birth order types – firstborn, middle born, youngest, and only child – do you think has the fewest advantages in life? Explain.

**C Notice** Follow the instructions below to help you notice and understand comparison and contrast sentences from the essay that use *as . . . as*.

- 1 Read the *as . . . as* sentence in the third paragraph. Are middle children likely to be equally determined, more determined, or less determined than firstborn children? Explain.
- 2 Read the *as . . . as* sentence in the fourth paragraph. Are youngest children likely to be equally creative, more creative, or less creative than middle children? Explain.
- 3 Read the *as . . . as* sentence in the fifth paragraph. Are only children likely to be equally intelligent, more intelligent, or less intelligent than children with siblings? Explain.

50

Comparison and Contrast 1

**W**hat do U.S. Presidents Jimmy Carter, George W. Bush, and Barack Obama all have in common? In addition to being elected president of the United States, these men all share the same birth order. Each one is the oldest child in his family. In fact, many very successful people in government and business have been "firstborn" children. While there is always some variation, some experts agree that birth order can have an influence on a person's personality in childhood and in adulthood.

Firstborn children often share several traits. First, in contrast to their siblings, they are more likely to be responsible, ambitious, and authoritarian. This is probably because they are born into an environment of high expectations, and they usually receive a great deal of attention. They are used to being leaders, taking responsibility for others, and sometimes taking on an almost parental role.

Middle children, on the other hand, exhibit different characteristics from firstborns. They are often not as determined as firstborns. They tend to be more passive and solitary. Having to share family attention with older and younger siblings, middle children have a tendency to be more realistic, creative, and insightful.

Youngest children are often more protected than their older siblings. As a result, they are more likely to be dependent and controlling. They are often as creative as middle children, but usually more easygoing and social.

A child with no siblings, or an "only child," also exhibits some unique characteristics. While some parents worry that an only child will have difficulties socializing and making friends, studies show that an only child is just as intelligent, accomplished, and sociable as a child with siblings. In fact, some research indicates that being an only child has some benefits. These children tend to have better vocabulary, perform better at school, and maintain closer relationships with their parents than children with siblings.

Even though it is assumed that birth order dictates some personality traits, individuals can free themselves from the roles they played when they were young, but it can be difficult. According to Vikki Stark, family therapist and author of *My Sister, My Self*, change requires letting go of familiar ways of being and patiently asserting new behaviors that express one's true self.

## Birth Order and Adult Sibling Relationships

Family Size and Personality 51

## NOTICE ACTIVITIES

draw students' attention to the structure, guiding their own analysis of form, meaning, and use.

## GRAMMAR PRESENTATION

begins with an overview that describes the grammar in an **easy-to-understand** summary.

### 2 Identifying Relative Clauses

#### Grammar Presentation

A relative clause modifies a noun and follows the noun it modifies. Identifying relative clauses provide necessary information about the noun. They are used in all kinds of academic writing, but they are especially useful in comparison and contrast writing to describe characteristics of elements that are being compared.

Children **who/that have no siblings** are often very close to their parents. People **gradually behave in ways which/that are more consistent with their preferred self-image**.

#### 2.1 Identifying Relative Clauses

**A** An identifying relative clause modifies a noun. It begins with a relative pronoun: that, which, who, whom, or whose. (It is often called a restrictive relative clause.)

An identifying relative clause answers the question, "Which one?" It gives necessary information about the noun or noun phrase in the main clause. Without that information, the sentence would be incomplete.

**B** Who, that, and whom refer to people. Use whom for object relative clauses. In informal speaking and writing, the use of who for whom is common.

**C** Whose shows possession. It is followed by an animate or inanimate noun in academic writing.

Which and that refer to things. In academic writing, that is often preferred to which in identifying relative clauses.

##### IDENTIFYING RELATIVE CLAUSE

People **who do not have children** may not be aware of differences in birth order.

##### IDENTIFYING RELATIVE CLAUSE

Creativity is a trait **that all middle children share**.

##### PEOPLE

Researchers **who/that study families** have different views.

My siblings are the people in my life **whom I will** always trust.

##### POSSESSION

Researchers **whose work focuses on families** disagree about the importance of birth order.

She cited a study **whose results supported** previous research.

##### THINGS

The study examines characteristics **that/which are common in firstborn children**.

#### Data from the Real World

In academic writing, the relative pronoun **who** is more commonly used than **that** to refer to people.

Who

That

In speaking, the relative pronoun **that** is more commonly used than **who** to refer to people.

Who

That

#### Grammar Application

##### Exercise 2.1 Identifying Relative Clauses

**A** Read the paragraph about birth order. Complete each sentence with that, who, whom, or whose. Sometimes more than one answer is possible.

Birth order researchers have discovered some interesting information. <sup>(1)</sup> that can help us understand our colleagues better. Do you have a difficult boss <sup>(2)</sup> authoritarian personality makes your life difficult? If so, your boss might be a firstborn child. Children <sup>(3)</sup> are born first are often more authoritarian than their younger siblings. Do you have a co-worker <sup>(4)</sup> is passive, but particularly creative and insightful? This person may be a middle child. People <sup>(5)</sup> have both older and younger siblings are often passive because their older siblings were responsible for their well-being when they were young. The creativity <sup>(6)</sup> they exhibit might be the effect of their having spent a lot of time on their own due to having to share parental attention with their older and younger siblings. People <sup>(7)</sup> you work with <sup>(8)</sup> are controlling may be youngest children. These people are also likely to be more social than co-workers <sup>(9)</sup> are middle children. Of course, these are only generalizations. There are countless factors <sup>(10)</sup> help form people's personalities, but birth order research may shed some helpful light on people's behavior in the workplace.

## CHARTS

provide clear guidance on the form, meaning, and use of the target grammar for ease of instruction and reference.

## GRAMMAR APPLICATION

keeps students engaged with a wide variety of exercises that introduce new and stimulating content.

## DATA FROM THE REAL WORLD

takes students beyond traditional information and teaches them how the unit's grammar is used in authentic situations, including differences between spoken and written use.

## QR CODES

give easy access to audio at point of use.

### Data from the Real World

In academic writing, 75 percent of relative clauses with whose modify inanimate nouns.

The report included the results of a study funded by an organization *whose* mission is to help children reach their potential.

### Exercise 3.2 Comparatives with As . . . As

**A** Listen to the story of two famous sisters – Venus and Serena Williams. Complete the chart.

	Venus Williams	Serena Williams
1 Birth date	June 17, 1980	
2 Height	6'1"	
3 Year turned professional		
4 Wimbledon singles victories (individual years)		
5 U.S. Open singles victories (individual years)		

**B** On a separate sheet of paper, use the information from A and the cues below to write sentences with the following as . . . as phrases: *almost as . . . as; just as . . . as; not nearly as . . . as* and *not quite as . . . as*. Sometimes more than one answer is possible.

1 Serena / is / tall / Venus.

*Serena is not quite as tall as Venus.*

2 Serena / has / played / long / Venus.

3 Serena / is / old / Venus.

4 Serena / has / experience / Venus.

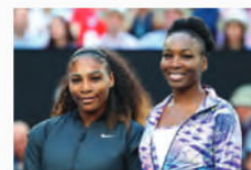

5 Serena / is / important to U.S. sports / Venus.

6 Serena / has / won / Wimbledon singles / Venus.

7 Venus / is / famous / Serena.

8 Serena / has had / Wimbledon singles victories / Venus has had.

9 Venus / has had / success in business / Serena. They are both successful businesswomen.

Serena and Venus Williams

**C Pair Work** Tell a partner about two people you know well. Compare them using as . . . as structures. Next, write five sentences about them using as . . . as. Use adjectives, adverbs, and noun phrases as well as phrases such as *almost*, *not nearly*, and *not quite* in your sentences where possible.

*Younsil does not have as many children as Victoria.*

*Younsil is not quite as shy as Victoria.*

## HOW TO USE A QR CODE

- 1 Open the camera on your smartphone.
- 2 Point it at the QR code.
- 3 The camera will automatically scan the code. If not, press the button to take a picture.

\* Not all cameras automatically scan QR codes. You may need to download a QR code reader. Search "QR free" and download an app.

## CONTEXTUALIZED PRACTICE

moves from controlled to open-ended, teaching meaningful language for real communicative purposes.

## AVOID COMMON MISTAKES

is based on a database of over 135,000 essays. Students learn to avoid the most common mistakes English language learners make and develop self-editing skills to improve their speaking and writing..

### Vocabulary Application

#### Exercise 4.1 Vocabulary That Shows Contrast

**A** Complete the following sentences about children in the United States using the words and phrases in the box.

differ from      **major difference between**      unlike  
in contrast      significantly different from

- One **major difference between** children in the United States in 1900 and now is that children in the past didn't get a lot of individual attention from their parents, while children today get a lot of individual attention.
- Another way that today's children are \_\_\_\_\_ children in the past is that in the past, children often worked to help their families, but children now often work for their own extra spending money.
- Today's children also \_\_\_\_\_ children in 1900 in that they are required to attend school.
- Children in the past often had large families with several siblings. \_\_\_\_\_, many children today have one or two siblings or are only children.
- In 1900, children were very independent. \_\_\_\_\_ them, children today depend on their parents a lot.

**B Pair Work** With a partner, draw a chart like the one below. Write five contrasting pieces of information about children in the 1900s and now in a culture that you are familiar with. Then present your information to the class, using vocabulary from A.

Children in the 1900s	Children Now

One major difference between young children in my native country today and in the 1900s is that in the 1900s, they used to work in factories. Today that's illegal.

### 5 Avoid Common Mistakes ⚠

- Do not use **who** with inanimate nouns.  
*A study **who** showed the benefits of being an only child was published last year.*
- Do not omit the relative pronoun in subject relative clauses.  
*Children **who** have older siblings tend to be somewhat dependent.*
- Remember that the subject and the verb must agree in relative clauses.  
*Children **have** siblings often become secure and confident adults.*
- Use the same **as**, not the same **than**.  
*Middle children often have the same level of creativity **as** youngest children.*

#### Editing Task

Find and correct eight more mistakes in this body paragraph from an essay comparing trends in families in the past and today.

##### Families Past and Present

- A major way that families have changed is the number of families **that** have only one child. The number of families had only one child was low in the United States in the 1950s and 1960s. However, one-child families began increasing in the 1970s and are very common today. This is especially true in households who have only one parent.
- One reason families are smaller is the cost of living. It is not the same than it was 40 years ago. For example, it costs about 10 times more to send a child to college than it did 40 years ago. As a result, many parents choose to have only one child because they do not have enough money for more children.
  - In addition, attitudes about only children are also not the same than attitudes about them in the past. In the 1950s and 1960s, people avoided having only one child. At that time, many people thought that children did not have siblings had many disadvantages. For example, people thought that they did not learn good social skills. However, recent studies who focus on only children show a different picture.
  - These studies show that only children tend to have the same social skills than children who has siblings.

Family Size and Personality 61

## THEME-RELATED EXERCISES

boost fluency by providing grammar practice in a variety of different contexts.

## EDITING TASK

gives learners an opportunity to identify and correct commonly made errors and develop self-editing skills needed in their university studies.

# Cause and Effect 1: Sentence Structure; Common Patterns with Nouns That Show Cause

## The Environment and You

### 1 Grammar in the Real World

You will read an essay about ecological footprints, a measurement of the impact each person has on the world's natural resources. The essay is an example of one kind of cause and effect writing in which one cause leads to several effects.

**A Before You Read** What are three common things that people do in their everyday lives that have an impact on the environment? Read the essay. According to the writer, what might be one effect of mining for natural resources such as coal and oil?

**B Comprehension Check** Answer the questions.

- 1 In your own words, what is an ecological footprint? Provide examples of activities that could cause a large and a small ecological footprint.
- 2 According to the essay, what are three major consequences of large ecological footprints?
- 3 "We do not inherit the Earth from our ancestors; we borrow it from our children" is a Native American proverb. How is this proverb related to the essay?

**C Notice** Follow the instructions below to help you notice sentence structures that state causes and describe effects.

- 1 In the first paragraph, find the sentence about easily accessible resources and large ecological footprints on lines 10–14. Write C above the clause that gives a reason or cause and E above the clause that states the effect. Circle the word that introduces the cause.
- 2 In the third paragraph, find the sentence that states the effect of releasing dangerous gases in the air. Circle the phrase that introduces the effect.
- 3 In the fourth paragraph, underline the first sentence. Does the sentence describe a cause or an effect? What phrase does the writer use to introduce it?

# Ecological Footprints

**E**nvironmentalists are increasingly concerned about the impact that individuals have on our planet, and many people now want to help protect the environment. A good place to start is reducing one's ecological footprint. An ecological footprint is an estimate of how much land, water, and other natural resources are being used by a person or a group. Because resources are easily accessible in developed countries like the United States, people in these countries tend to have large ecological footprints. For example, they may take long showers, leave their computers on for the whole day, buy new things they do not need, and fly frequently between cities. The consequences of large ecological footprints can be disastrous.<sup>1</sup>

One of the worst effects of large ecological footprints is the loss of natural resources, such as oil, water, and wood. These resources are being consumed so fast that the Earth does not have time to renew them. Approximately 99 million barrels of oil are produced daily in the world. People use oil to run their cars, heat their homes, and create products such as clothes, paint, and plastic.

Plastic is now one of the biggest threats to our environment, and in fact to each of us. The naturalist David Attenborough shocked the world by showing images of sea birds attempting to feed their young on plastic shopping bags. It is estimated that eight million tonnes of plastic end up in our oceans every year. Unless this stops, there will be more plastic than fish in the ocean by 2050. Already, billions of people around the world are drinking water that is contaminated by plastic. The United States is the country worst affected, with 94% plastic contamination in its tap water.

Large ecological footprints also lead to higher greenhouse gas emissions. The mining of oil, natural gas, and coal, as well as the use of these resources in electrical power plants and automobiles, releases dangerous gases into the air, where they trap<sup>2</sup> heat. As a result, the Earth gets warmer.

It is our responsibility to find ways to decrease our impact on our planet. Even small changes can make a difference and help to protect the environment. If we do not start reducing our ecological footprints right away, it may be too late for future generations to contain<sup>3</sup> the damage.

<sup>1</sup>**disastrous:** causing a lot of damage

<sup>2</sup>**trap:** prevent from leaving

<sup>3</sup>**contain:** limit

## 2 Sentence Structure: Simple and Compound Sentences

### Grammar Presentation

In cause and effect writing and in academic writing in general, it is effective to use a variety of sentence types. Writers use simple sentences to express facts or opinions strongly. They use compound sentences to link related ideas such as causes and effects.

Simple sentence:

*Lack of natural resources is one of the results of large ecological footprints.*

Compound sentence:

*Large ecological footprints cause many problems, and it is our social responsibility to solve them.*

### 2.1 Simple Sentences

**A** A simple sentence has only one clause, called a *main clause* or an *independent clause*. Like all sentences, a simple sentence must have a subject and a verb.

SUBJECT VERB  
*Millions of barrels of oil are produced daily.*

Many different elements may come after the verb, including:

object

prepositional phrase

adjective

adverb

SUBJECT VERB OBJECT  
*Plastic pollution has devastated our oceans.*

SUBJECT VERB PREP. PHRASE  
*Ozone and other greenhouse gases are often in the news.*

SUBJECT VERB ADJECTIVE  
*The Earth is becoming warmer.*

SUBJECT VERB PREP. PHRASE  
*Natural resources that provide energy will run out eventually.*

**B** The subject of a sentence must be a noun phrase. There are many different kinds of noun phrases, including:

adjective + noun

pronoun

noun and noun

noun + prepositional phrase

noun + relative clause

gerund

*Small changes can make a difference.*

*This has devastated many oceans.*

*Ozone and other greenhouse gases are often in the news.*

*The health of our oceans remains critical.*

*Natural resources that provide energy will run out eventually.*

*Reducing our ecological footprints is crucial.*

## 2.1 Simple Sentences (continued)

**C** The verb of a sentence can consist of a single main verb or a main verb with an auxiliary verb such as *be*, *do*, and *have*, or a modal such as *can* and *will*.

A verb phrase can consist of more than one verb.

MAIN VERB

*The health of our oceans **remains** critical.*

AUXILIARY VERB

*This **has** devastated many oceans.*

MODAL

*People **may** take long showers.*

*The average temperature **rises and falls**.*

## 2.2 Using Simple Sentences

**A** Use short simple sentences to emphasize an important point within the larger discourse.

*The consequences of these footprints can be disastrous.*

**B** If the subject or a verb is missing, the sentence is incomplete. It is called a *fragment*.

Avoid fragments by making sure all sentences have a subject and a verb.

FRAGMENT (MISSING SUBJECT): *In the future, will probably be much warmer on Earth.*

CORRECTION: *In the future, **the temperature** will probably be much warmer on Earth.*

FRAGMENT (MISSING VERB): *The worst effect of large ecological footprints the loss of natural resources.*

CORRECTION: *The worst effect of large ecological footprints **is** the loss of natural resources.*

**C** Academic writers connect independent clauses with transition words to make the relationship between two ideas very clear.

Some examples of transition words are:

*as a result, consequently, furthermore, however*

You can use a period or a semicolon before a transition word to connect the independent clauses. Use a comma after a transition word.

*These gases trap heat in the air. **As a result**, the Earth gets warmer.*

*These gases trap heat in the air; **as a result**, the Earth gets warmer.*

**D** You can connect two independent clauses with a semicolon. This is a good choice if the ideas in the two clauses are closely related.

INDEPENDENT CLAUSE 1

INDEPENDENT CLAUSE 2

*People should buy less; they should replace items only when absolutely necessary.*

## 2.3 Compound Sentences

**A** Use compound sentences to connect two ideas. A compound sentence includes at least two independent clauses that are connected by a coordinating conjunction (*and*, *but*, *or*, *so*, *yet*). Use a comma before the coordinating conjunction.

INDEPENDENT CLAUSE 1  
*Some people are concerned about the environment,*  
INDEPENDENT CLAUSE 2  
***so** they recycle as much as they can.*

**B** Avoid run-on sentences and comma splices. A run-on sentence is two independent clauses without a coordinating conjunction.

Use a comma and coordinating conjunction when connecting two independent clauses.

A comma splice is two independent clauses combined with a comma.

Use a period between the two independent clauses.

RUN-ON: *These gases trap heat in the air the Earth gets warmer.*  
CORRECTION: *These gases trap heat in the air, **so** the Earth gets warmer.*

COMMA SPLICE: *Humans are the cause of many environmental problems, it is our responsibility to resolve them.*

CORRECTION: *Humans are the cause of many environmental problems. It is our responsibility to resolve them.*

**C** The use of *and* and *but* to introduce a sentence is common in some types of writing, such as in newspapers and magazines. However, it is not usually appropriate in academic writing.

*Natural resources are being consumed so fast that the Earth does not have time to renew them. **And** as a result, these resources are becoming scarce.*  
*There are efforts to clean up the oceans. **But** the health of our oceans remains critical.*

## Grammar Application

### Exercise 2.1 Subjects and Verbs

Read about energy resources in Iceland. Underline the subject, and circle the verb in each independent clause.

- 1 Iceland has huge frozen glaciers, but it also has more than 100 volcanoes.
- 2 In 1998, Iceland decided to become independent from fossil fuels.
- 3 It began to increase its use of renewable energy sources.
- 4 Electricity in Iceland's homes is generated by geothermal springs, or it comes from the energy of the rivers and glaciers.
- 5 The water in geothermal springs is already hot, so Icelanders use it instead of fossil fuels to heat their homes.
- 6 Basic services such as transportation in Iceland are switching to electric vehicles, and all ships in the large fishing industry may eventually operate on hydrogen fuel.
- 7 Iceland satisfies its country's need for energy without relying heavily on fossil fuels.

## Exercise 2.2 Fragments, Run-on Sentences, and Comma Splices

**A** Read the following sentences about the environment. Check (✓) each complete sentence. Write *F* for each fragment, *R-O* for each run-on, and *CS* for each comma splice.

- 1 (a) ☒ Over time, people have destroyed the natural habitats of many plants and animals in order to build more homes and grow more food. (b) ☐ *F* For this reason, many of our forests now gone. (c) ☐ *R-O* Plants and animals are losing their homes they may become extinct.
- 2 (a) \_\_\_\_\_ Water pollution a serious problem. (b) \_\_\_\_\_ For many years, people got rid of waste by dumping it into the water. (c) \_\_\_\_\_ As a result, the quality of the water in many of our oceans, rivers, and lakes unacceptable. (d) \_\_\_\_\_ In fact, nearly about two billion people in the world do not have safe drinking water, and over two million people die each year from diseases related to water.
- 3 (a) \_\_\_\_\_ Environmentalists are constantly trying to come up with ideas to protect the environment nobody knows what the environment will be like in the future. (b) \_\_\_\_\_ However, researchers believe that much has already improved. (c) \_\_\_\_\_ Individuals are becoming more aware of the environment around them.
- 4 (a) \_\_\_\_\_ Trying to protect nature in various ways. (b) \_\_\_\_\_ Some people are helping to clean up the environment by driving electric cars, others are working to preserve endangered plants and animals. (c) \_\_\_\_\_ These efforts will allow future generations to have clean air and water and to enjoy the world's natural beauty.
- 5 (a) \_\_\_\_\_ The forests of the Earth are being cut down. (b) \_\_\_\_\_ The destruction of the forests is the result of human and natural disasters. (c) \_\_\_\_\_ Has negative consequences on the environment.

**B** Rewrite the fragments, run-ons, and comma splices in A. Use coordinating conjunctions, transition words, and punctuation to correct run-ons and comma splices. Check your answers with a partner.

- 1 *For this reason, many of our forests are now gone. Plants and animals are losing their homes. As a result, they may become extinct.*

- 2 \_\_\_\_\_
- 3 \_\_\_\_\_
- 4 \_\_\_\_\_
- 5 \_\_\_\_\_

# 3 Complex Sentences

## Grammar Presentation

Another way to link cause and effect ideas is with complex sentences. Complex sentences have one independent clause and at least one dependent clause.

*Because resources are readily accessible in developed countries like the United States, people in these countries tend to have large ecological footprints.*

### 3.1 Complex Sentences

A complex sentence has an independent clause and a dependent clause introduced by a subordinator. Subordinators show the relationship between the two ideas.

Some examples of subordinators are:  
*although, after, as if, because, before, if, since, whereas, whether, while*

When the dependent clause comes first, use a comma to separate it from the independent clause.

INDEPENDENT CLAUSE  
*Future generations will suffer*  
DEPENDENT CLAUSE  
*if pollution is not reduced.*

DEPENDENT CLAUSE  
*Although people try to save energy,*  
INDEPENDENT CLAUSE  
*global demand for energy increases every year.*

### 3.2 Using Complex Sentences

**A** In academic writing, use complex sentences with the subordinators *because, if, since, and when* to express cause and effect relationships.

CAUSE EFFECT  
*If pollution is reduced, global health will improve.*

**B** A dependent clause that is not connected to an independent clause is a fragment. Avoid dependent clause fragments in the following ways:

Connect the dependent clause to an independent clause. (Remember to use a comma after a dependent clause if it comes before an independent clause.)

OR

Change the subordinator to a transition word that can introduce an independent clause.

FRAGMENT: *Because energy use is high in the developed world. People there use a lot of resources.*

DEPENDENT CLAUSE  
CORRECTION: *Because energy use is high in the*  
INDEPENDENT CLAUSE  
*developed world, people there use a lot of resources.*

CORRECTION: *Energy use is high in the developed world. As a result, people there use a lot of resources.*

## Grammar Application

### Exercise 3.1 Complex Sentences

**A** For each pair of sentences about bald eagles, write **C** next to the sentence that shows the cause and **E** next to the sentence that shows the effect. Next, combine the sentences using *because*, *if*, *since*, or *when*. Sometimes more than one answer is possible.

- 1   E   The United States government declared bald eagles an endangered species.

  C   Bald eagles were almost extinct in the 1960s.

*Because bald eagles were almost extinct in the 1960s, the United States government declared them an endangered species.*

- 2 \_\_\_\_\_ The bald eagle showed the qualities of impressive strength and courage.  
\_\_\_\_\_ The bald eagle was chosen in 1782 to be the symbol for the United States.

- 3 \_\_\_\_\_ The government enacted laws that included banning the use of the pesticide DDT.  
\_\_\_\_\_ The bald eagle population began to recover.

- 4 \_\_\_\_\_ In 2007, the bald eagle was taken off the Endangered Species Act's "threatened" list.  
\_\_\_\_\_ The bald eagles' numbers had greatly increased since the 1960s.

- 5 \_\_\_\_\_ The bald eagle population may decrease once more.  
\_\_\_\_\_ The habitats of the bald eagles are not protected in the future.

- 6 \_\_\_\_\_ Some biologists are urging wind energy companies to develop safer turbines.  
\_\_\_\_\_ The birds are sometimes killed by the blades of wind turbines.

- 7 \_\_\_\_\_ People can help protect the bald eagle.  
\_\_\_\_\_ People volunteer to clean up the habitats where eagles nest.
