- Read the text and answer the questions.
 - Why did Louis Braille invent a new writing system?
 - b How was his writing system better than the one before?
 - c Who did he help with his invention?

Reading Strategy: Asking Questions

Asking questions about a text helps you to understand it. You can think of questions to ask before, during, and after reading a text.

HISTORY OF BRAILE

Louis Braille was born in 1809 near Paris. When he was three years old, he had an accident, and he became blind. When he was ten, he went to a special school for blind people.

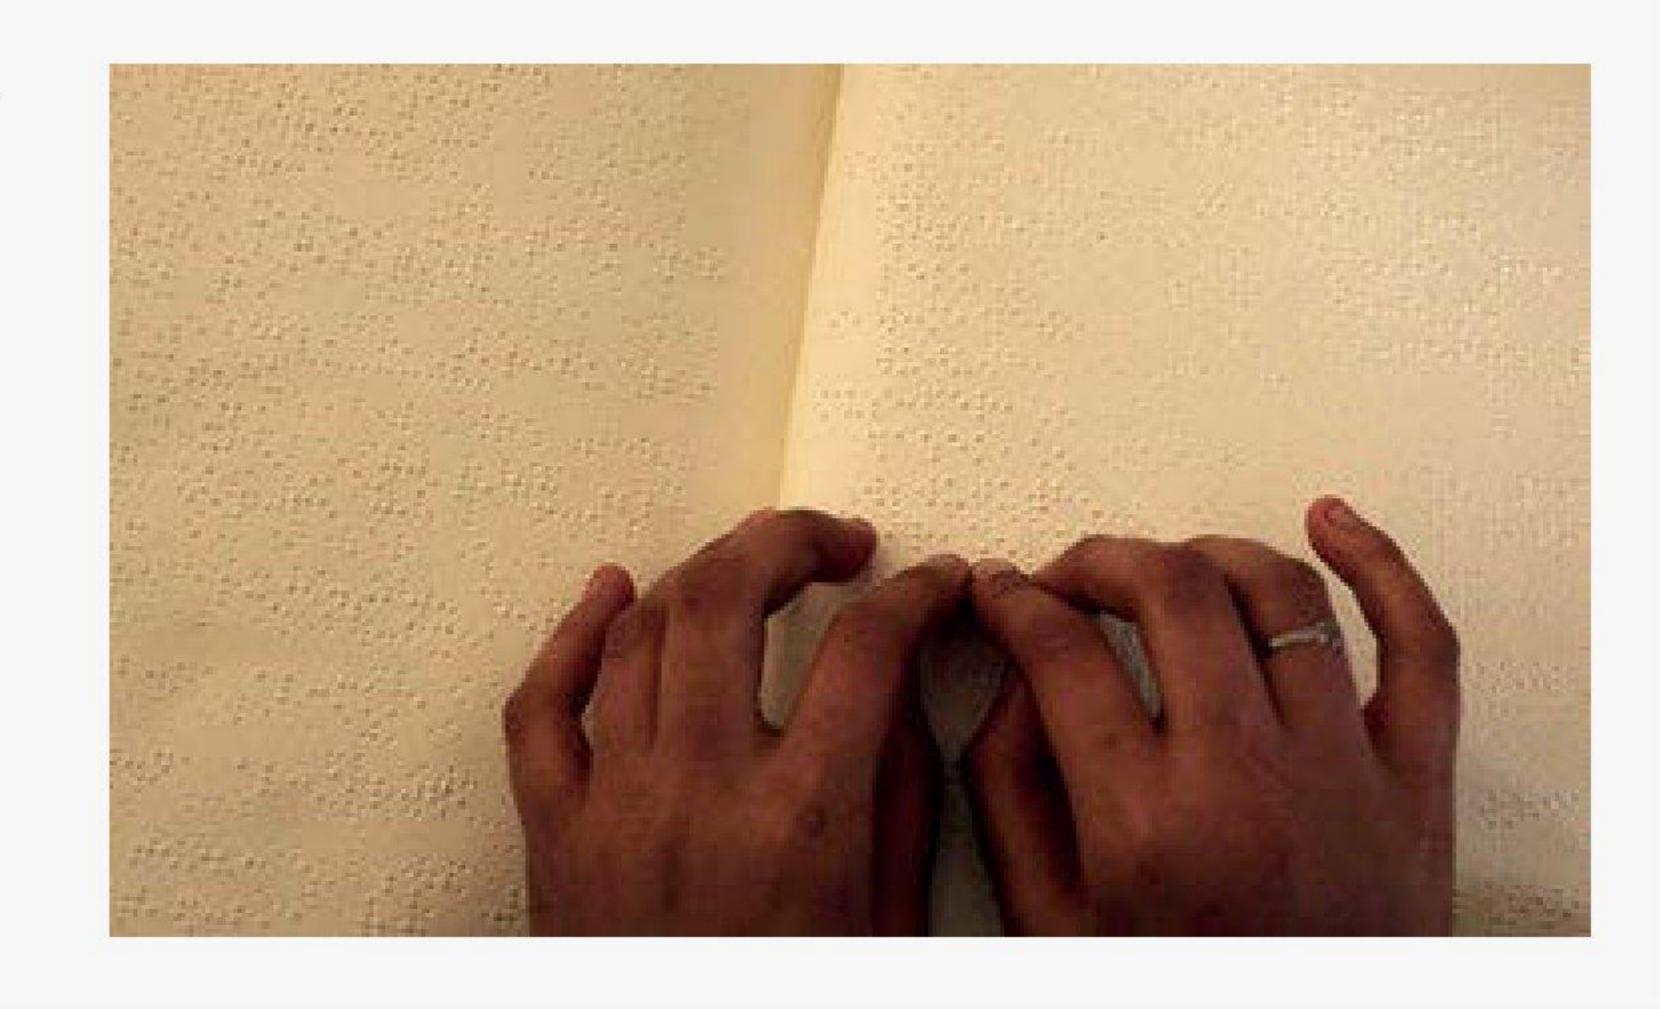

Louis's school library had books with letters that the blind students could feel with their fingers. But there weren't very many, because making that kind of book cost a lot of money. Louis quickly read all the books in the library. He wanted to read and learn more. So, he decided to invent a new way to make letters for blind people. He used dots to represent the letters. These dots also stuck up from the pages. Louis's system of letters was

easier to read. It was also cheaper, so people could make more books. Louis's system is now known as Braille. You have probably seen Braille letters and numbers in elevators and other public places.

About <u>Posts</u>

Subscribe

Can you guess how old Louis was when he invented his system? He was only 15!

Write two more questions about the text. Use who, what, how, when, where, or why. Ask a friend.

- 2) Look at the title and pictures on the next page. Then, answer the questions.
 - a The biographies are of four "whiz kids." What do you think whiz kid means?
 - b What do you think each whiz kid did?

What invention has helped people the most?

1.3

BIOGRAPHY COMPETITION: WHIZ KIDS!

This month's writing competition is about whiz kids: young people who inspire you with their stories.

DEEPIKA KURUP

Born: 1998, U.S.A.

Occupation: Scientist and

Inventor

Deepika Kurup has invented a simple way of making clean drinking water. Germs in dirty drinking water can make you sick. Millions of people around the world die because they do not have clean drinking water. Deepika became interested in this problem when she traveled to India. The water in some places wasn't clean. Deepika saw many children drinking dirty water. She wanted to do something to help.

Most methods for cleaning water are difficult or expensive. Deepika's method is simpler and cheaper because it uses solar power. Deepika uses

a special material called a photocatalyst. It reacts with sunlight and kills all the germs in dirty water. Her photocatalyst can also be used again and again!

Deepika won a prize for her invention when she was only 14. Now she wants to study medicine and become a doctor. But her invention has already saved many lives around the world.

Key Words 2

react
developer
ambassador
code
successful
skill
professional
electronic
invent
innovation

JORDAN CASEY

Born: 1999, Ireland
Occupation: Technology
Developer and Youth
Ambassador

Jordan Casey knows how to code and write computer programs. He learned by reading a book when he was nine years old!

Jordan had no plans to become successful. He made a website because he liked to code. A few years later, he wrote his first mobile game app.

Since then, Jordan has developed many other apps.

Now Jordan has his own company. He wants to help other young people become successful. One of his projects is KidsCode. It's an online world that teaches kids programming skills. Players create their own characters and world as they play.

The game is very creative and fun. At the same time, it teaches children how to program games.

What is Jordan's advice? "Don't let your age hold you back. So, remember, even if you are just a kid, you can do great things!"

BIOGRAPHY COMPETITION: WHIT KIDS!

AELITA ANDRE

Born: 2007, Australia

Occupation: Student and

Artist

Aelita Andre is the youngest professional painter in the world.

Aelita's father is a painter, too. One day, he put a canvas on the floor. Aelita was only nine months old at the time. She crawled over to the canvas and started to paint. She kept on making paintings.

A little while later, she had her first exhibition. An art gallery saw and liked her colorful paintings. The gallery didn't

know that Aelita was only two years old. They wanted to show the paintings because they were so good. Since then, Aelita has had art exhibitions around the world.

Aelita donates some of the money from her paintings to charity. These charities help poor children get new boots and help other children with their problems. That's amazing for an artist who started painting before she could walk!

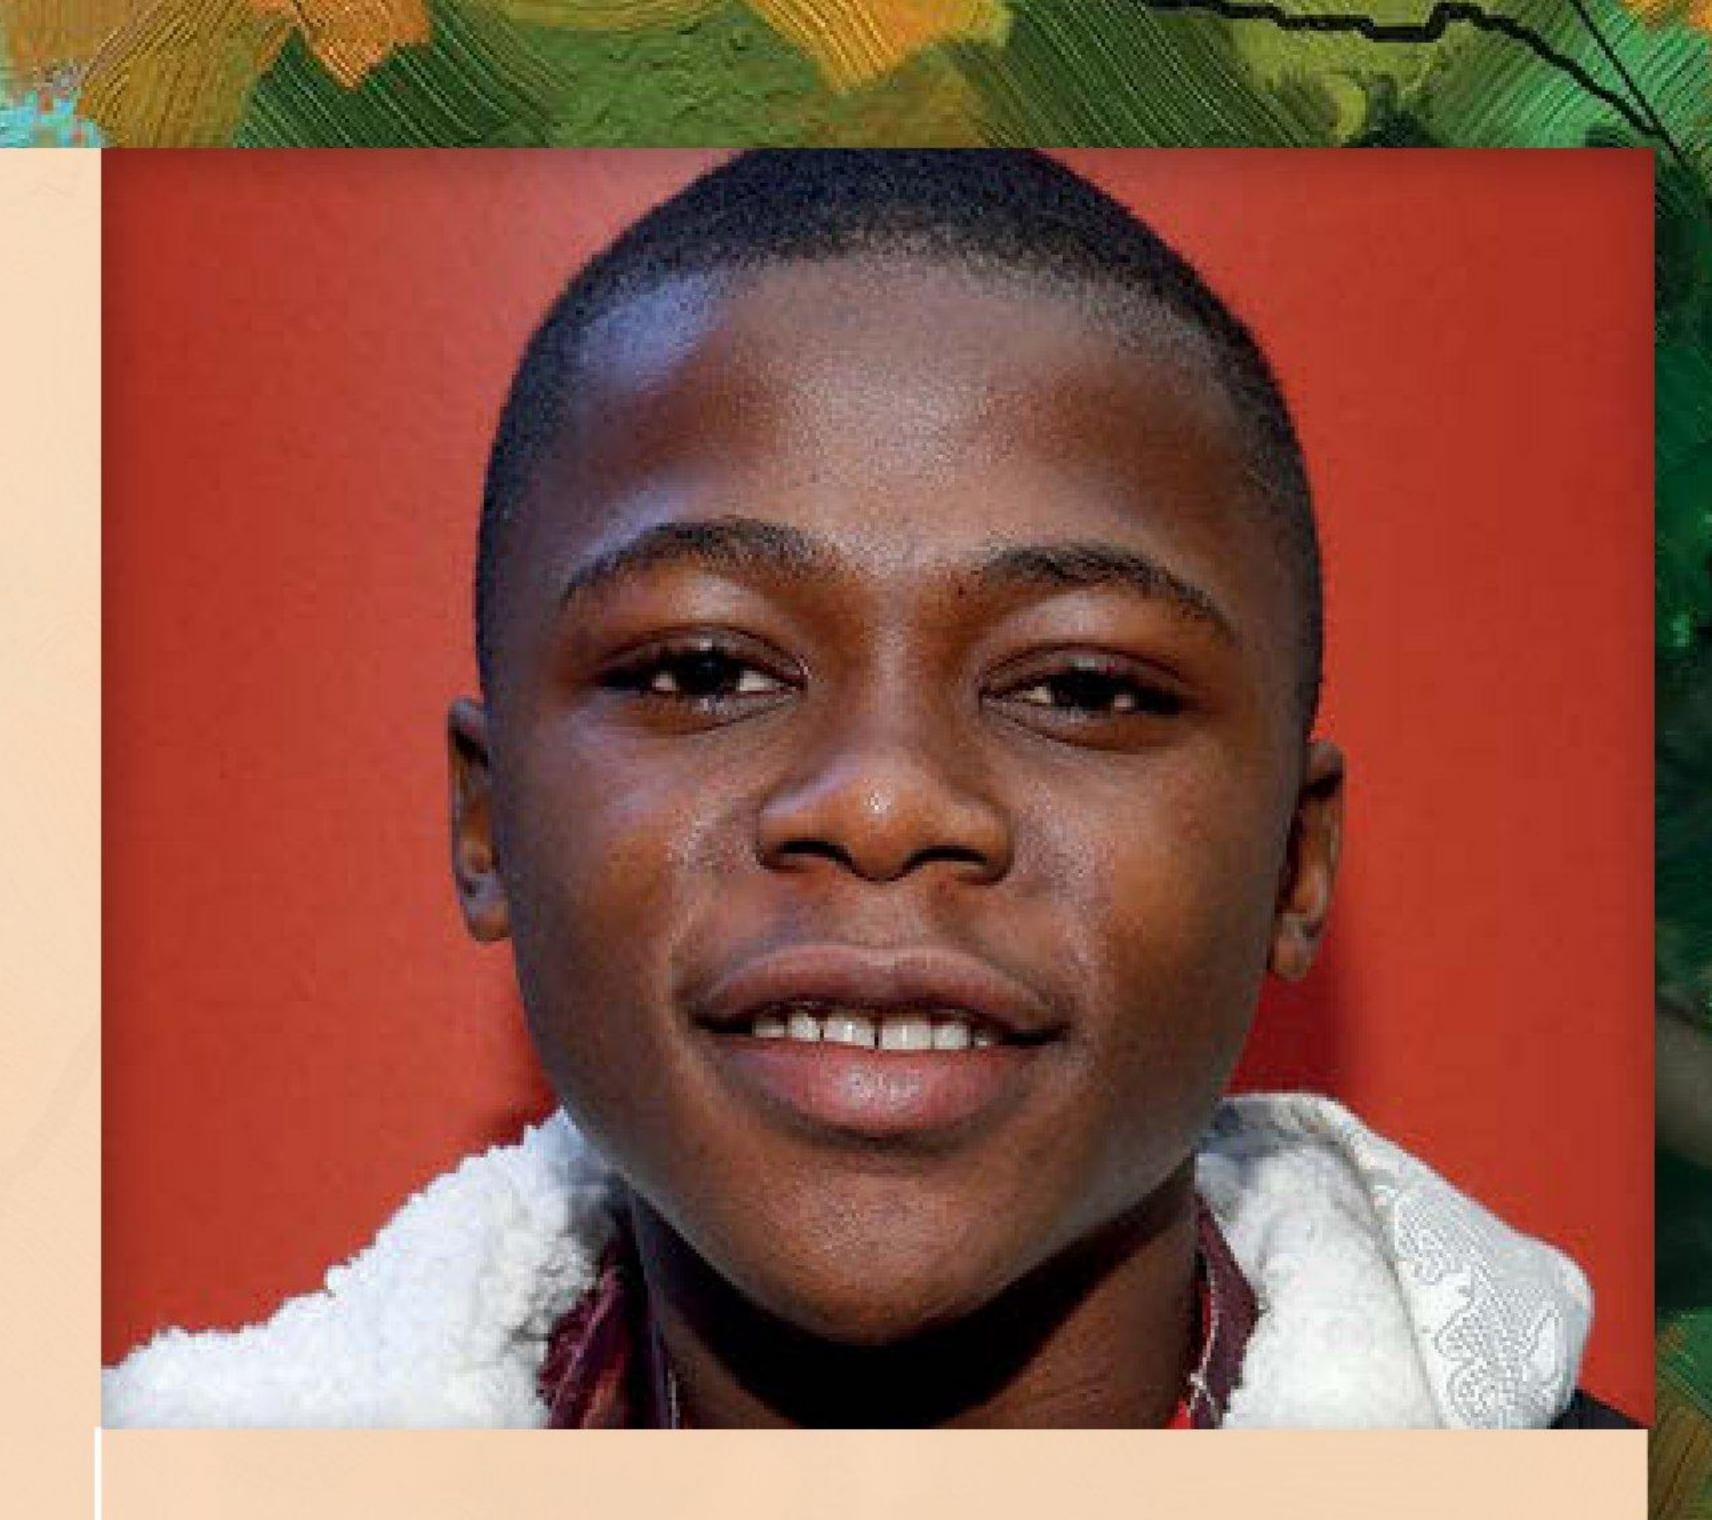

KELVIN DOE

Born: 1996, Sierra Leone
Occupation: Inventor and
Radio DJ

Kelvin Doe is a young inventor. When he was 11, Kelvin started fixing broken electronic devices. He took them apart and learned how they worked. Soon he was building his own devices. He also made batteries and a generator because only a few houses had electricity where he lived.

Kelvin thought people in his town needed to talk about their problems. He built his own radio station and created a new program. It had a lot of news and music. People liked discussing their problems on the program, too.

Now Kelvin shares his ideas with people around the world. He has talked to many students about what he learned. Kelvin loves inventing. And he wants

to use his ideas to help his country. He says, "I believe that, through innovation, we can build our nation Sierra Leone."

Impressive stuff, we're sure you agree! Do you feel inspired? Choose a whiz kid you know and post your biography on our website at Writingforkids www.writing4kids.mox

) Think

Which whiz kid do you think has helped the most? Why?

1) Choose one whiz kid and write the answers.

Name of Whiz Kid:	
Who does he/she want to help?	
Why does he/she want to help them?	
How does he/she help them?	

2) Complete the table using Deepika Kurup's and Kelvin Doe's biographies.

Problem	Solution
Many people around the world do not have clean drinking water.	Deepika Kurup invented a way of making clean drinking water.
Making clean drinking water is difficult and expensive.	
Most houses in Kelvin Doe's town didn't have electricity.	
People in Kelvin Doe's town needed to discuss their problems.	

(3) (1.5) Key Words 3 Complete these sentences with the words from the text.

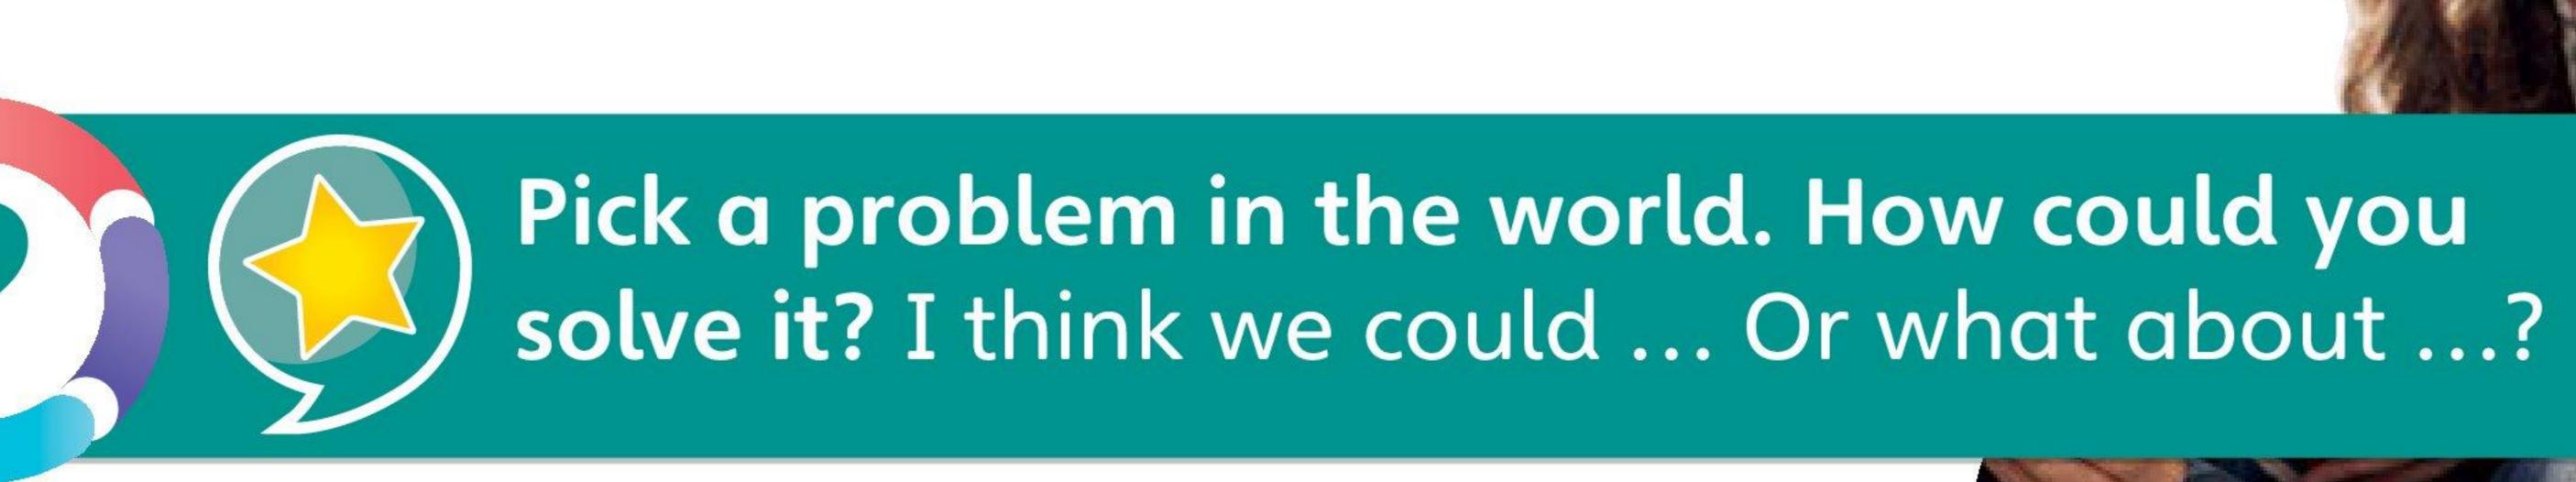

canvas generator germs exhibition

a An _____ is a show where you can see an artist's work.

b A _____ is a machine that makes electricity.

C A _____ is a piece of fabric you can paint on.

d ____ are very small organisms that can make you sick.

11

Grammar: Quantifiers

Most methods for cleaning water are expensive. Jordan had no plans to become successful.

Read the sentences and do the tasks.

All the houses had electricity.

Most houses had electricity.

Some houses had electricity.

A few houses had electricity.

No houses had electricity.

- a Which word in each sentence describes an amount? Circle these words in blue.
- b Which of the words in blue describes the smallest amount? Which describes the largest?
- Read and complete with the correct quantifiers.

no a few some most all

How green are you?	Carla	Max	Lola	Ben	Ruby	Lucas
Do you recycle?				*		
Do you always pick up litter?						
Do you walk or ride a bike to school?						
Do you come to school by car?						
Do you turn off lights to save energy?						

How Green We Are

Our group did a survey on how green we are. We are happy because we think we are pretty green! ______ students in the class recycle, and _____ students always pick up litter. _____ students walk or ride a bike to school. ____ students come to school by car. ____ students turn off lights to save energy.

- Do a group survey. Use the questions in Activity 2 and add two more questions.
- Tell the class the results of your survey. Use quantifiers.

Some students in our class recycle.

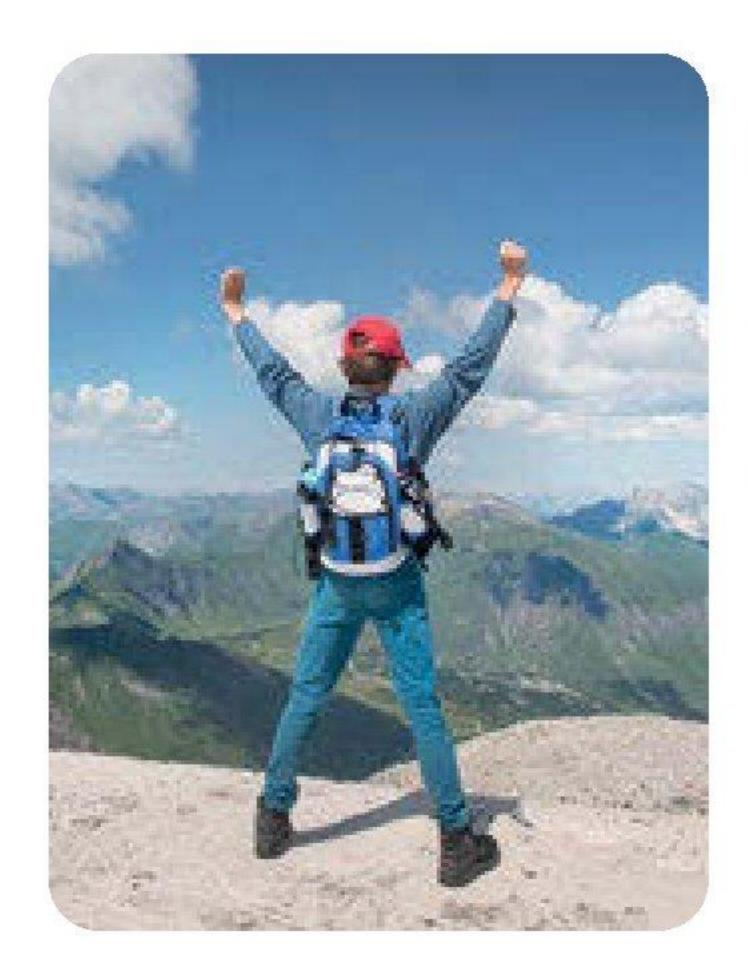

Time to Talk!

On a scale of I to IO (I = not green at all and IO = very green), how green are you? Why did you give yourself that score?

1) 1.6 Listen and repeat the words. What sound does each word pair have in common?

achieve

believe

receive

ceiling

neighbor

eight

- Read the words again and underline *ie* or *ei*.

 Guess the spelling rule.
- Put the words in the correct columns. Listen to check.

beige foreign niece society brief rein

Spelling Rule: ie or ei?

When a word has the long *e* sound, we write *i* before *e*, except after *c*: achieve receive

When a word has the long *a* sound, we write *ei*:

neighbor eight

There are exceptions to this rule: weird, either, seize

long e sound

believe

long a sound

weigh

other sounds

ancient

Complete the rhyme. Then, listen to check.

If it's *i* before e, but not after c,

EEE's the sound that you rec____ve.

It works most of the time, I bel_____ve.

But if it's e before *i*, and not after *c*,

As in n____ghbor, AAA's the sound that you get.

Repeat this rhyme _____ght times, and you'll be set!

Oracy Skill: Ground Rules

Ground rules help us understand how to behave when we are giving a presentation or having a discussion.

Decide on the ground rules for your class.

I'm Kate.

a Form small groups. Choose one of the following: ground rules for presentation or ground rules for discussion.

c Choose the five most important ones. Make a list in your notebook.

d Share with the class.

Let's Practice Oracy! (1) 1, 2, 3

Form groups. Choose an Oracy Time! topic.

2 Discuss.

Remember to follow the ground rules.

Oracy Time!

You should always tell the truth.

Talking is more important than listening.

Check Your Oracy!

1 My group followed the ground rules for discussion.	All the time / Sometimes / Never
2 Were any ground rules broken? If so, which rules?	
3 Are there any ground rules you think need to be added or changed?	

Write a Letter

Read the letter. Would you like to go to this event?

Read and answer.

- a How does the letter start and end?
- b How does the letter persuade us to support the event?
- c What practical information about the event does the letter include?

Dear friends and neighbors,

Come to our yard sale and concert at Hillford School on October 14!

We are collecting money for KIDS.

KIDS (Kids Involved and Doing Stuff) helps children in our local community. It helps them to buy school supplies and sports equipment. It also provides help with homework and organizes free vaccination days twice a year. It's run by kid volunteers, and it's a great organization!

For our yard sale, we need books, toys, and clothes. Please put them in a bag. Some students will pick them up on October 10 (or you can drop them off at the school).

The yard sale starts at 3 p.m. on October 14. The concert is at 5 p.m. We hope you can all come!

Thank you,

The students of Hillford School

Improve Your Writing: Parentheses

We use parentheses to add extra information to a sentence.

Underline two examples of text in parentheses in the letter.

- a Which set of parentheses add extra information to the sentence?
- b Which set of parentheses add an explanation of other words in the sentence?

Prepare to write your own letter to raise funds for a charity in the Activity Book.

Time to Talk!

What do you have at home that you could donate to this fundraising event? Make a list with a partner.

Key Words 4 Listen and read.

for Advice!

Hi Alice,

My family is moving, and I'm going to a new school. I'm really nervous. Do you have any advice for me? Becky

Hi Becky,

Don't worry. You'll be fine! Obviously the first day at a new school is always weird. You won't feel comfortable immediately. You'll miss hanging out with your old friends. You may feel lonely. You might even think that everyone is ignoring you. But your teacher is sure to make an announcement that you are new to the school.

Just be friendly and introduce yourself. You can take some candy to offer to new friends. If you get lost, ask other students for directions. People will help you when they realize you're new.

Everyone will be curious. They will want to find out more about you. Just go up and say hello (but make sure you're not interrupting a conversation). Smile and be friendly. Other people will be friendly, too!

Good luck, Alice

(2) (1) 1:10 Match the definitions with the phrases. Then, listen to check.

- be interested in something
- 2 speak when someone else is speaking
- 3 become aware of something
- 4 not listen to somebody
- 5 in a way that doesn't need to be explained
- 6 spend time with someone/others
- 7 strange or unusual
- 8 something someone says officially
- 9 not know where you are
- 10 meet another person and find out their name
- 11 instantly or at once
- 12 ask someone if they would like to have something

- a realize
- bannouncement
- c get lost
- d hang out with
- e introduce
- immediately
- ginterrupt
- h ignore
- be curious
- offer
- k obviously
- weird

Time to Talk!

When was the last time you made a new friend? How did you meet him or her? What do you like doing together?

Reading Strategy: Cause and Effect

A cause is the reason why something happens. The effect is what happens because of this cause. A cause can have more than one effect.

What effects will this situation cause? Make a list.

- Listen and compare your answers.
- Read each situation and choose an action. Then, write one effect of your action.

 A new student joins your class.

 Your teacher forgets to give you homework.

Do you ...

Effect:

a remind the teacher?

c keep quiet?

- Do you ...

 a invite them to hang out with you?
- b just say hello?
- c ignore them?

Effect:

Your playground is covered in trash.

Do you ...

- a pick up the trash and help clean up the playground?
- b tell your teachers about it?
- c go and play somewhere else?

Effect:

Can you remember an oracy rule for a class discussion?

b find some extra work to do at home?

Look at the pictures on pages 18–21.

Does Courtney make new friends?

Should we think about the effects of our actions before we do them? Why or why not?

By Joep van der Werff

Joep van der Werff is a teacher and writer. He was born in Holland. Joep likes to travel and take pictures wherever he goes.

A few months ago, our teacher, Ms. Collins, introduced Courtney to our class. She said, "Let's make Courtney feel at home with us," and she asked her to sit next to me.

With a smile, I turned to Courtney and said, "Hey, Courtney. You can come and hang out with my friends at recess if you like."

Courtney said, "Thanks, Jared."

During recess, Austin, Jessica, and I walked up to Courtney. We were curious about her, and we also wanted her to make friends at our school. Courtney was eating her lunch. It was a slice of vegetarian pizza, with tomatoes, green peppers, mushrooms, and black olives.

Austin asked, "Where ..."

Courtney nodded and interrupted him, "Oh, I come from a small town in Ohio." And she asked Austin, "Is your dad a carpenter?"

Austin's mouth dropped. "No, but my mom is! How did you know that?"

Courtney shrugged and ignored him. And later Austin said, "Well, that was funny! How did she know that?"

Later, we went back to the classroom. We worked on our art projects. They were animal figures made of paper. Suddenly, Courtney asked Jessica, "What did you paint? Can I see it?" We all looked at Jessica, but she wasn't holding a painting or paintbrush or anything. Jessica was not painting anything at all!

She said, "My dad and I painted the walls in my bedroom last night."

"Cool," Courtney said. "My parents had my room painted blue, too. I love the color blue."

Jessica said to me very quietly, "Well, that was strange. How did Courtney know that?"

We all went to the playground for P. E. Jessica asked Courtney, "Hey, do you want ..." But Courtney interrupted, "No, thanks, I don't like volleyball."

So we played volleyball without her, and I thought, "Well, that was weird. How did she know what Jessica was going to ask? Is she super intelligent?"

The next day, Courtney brought candy to class. She went around the class offering everyone candies from a big brown paper bag. There were tiny chocolate bars, purple lollipops, bright red cherry hearts, pink chewing gum, and a mysterious blue powder that tasted like bananas. This was her way of saying, "Thanks for being friends with me." But she didn't offer Jada any candy. Jada gave Courtney a friendly smile, and Courtney smiled back.

I thought, "Well, that was strange! Why didn't she offer any candy to Jada?"

© Think

Why should we welcome new students at school?

1.13 Courtney the Mind Reader

At lunchtime, Courtney picked up a yellow lunchbox she thought was hers. When she opened the lunchbox, she saw a carrot and raisin salad and a big piece of carrot cake. She walked up to Austin. "Hey, Austin, I have your lunchbox. Do you have mine?" And they exchanged lunchboxes. Both of them were yellow. Austin didn't understand how Courtney knew it was his lunchbox.

It didn't have his name on it or anything.

The day after, a puppy appeared in the courtyard. It was the cutest little thing you have ever seen! He barked two times and then sat down and wagged his tail.

We all made a circle around the puppy. We tried to get him to go home, but he didn't want to leave. I offered him a bit of my sandwich. The puppy looked happy and healthy, but he had obviously gotten lost.

I said, "Hey, little dog, you can't eat my whole sandwich!"

Austin said, "Somebody must be looking for this doggy. We need to find out who he belongs to. What do you think we should

"Maybe there's an address on his collar," said Jessica.

I picked up the puppy carefully to look at the collar. It was red, green and white. Engraved on the name tag was the name Mozzarella.

Courtney immediately said, "Oh, that helps! Does anyone know a family from Italy that lives around here?"

Think

How does Courtney know so much? Can you guess?
