What emergency? Culture: The Great Escape Writing A story about a rescue Listening The story of the farmer, the donkey and the well
Different pronunciations of <i>ea</i>	Train to Think: Logical conclusions Values: Breaking new ground	Reading Article: The first thing you remember Readers' letters: My first (and last) time Fiction: <i>Bullring Kid and Country Cowboy</i> by Louise Clover Writing A story about a bad decision Listening A presentation about the history of the Internet

INTRODUCTION

COURSE METHODOLOGY

Solid skills and language work

Think is a six-level course for adolescents and teenagers from A1 to C1-levels of the Common European Framework of Reference (CEFR). Based on a carefully crafted skills and language syllabus, the course helps students develop their receptive and productive language skills and strategies, and provides a systematic approach to competence training to help them prepare for their Cambridge English exams.

The authors have put great emphasis on the continuous extension of students' lexical knowledge by including two vocabulary sections within each unit, together with WordWise activities in every other unit. WordWise aims to develop awareness of and competence in using high-frequency words and chunks of language, important collocations, and phrasal verbs, as well as increasing fluency. In addition, an entertaining and thought-provoking teen photostory offers natural contexts for the presentation and practice of phrases for fluency. These are high-frequency lexico-grammatical chunks of language used in spoken communication.

Students are guided through the grammar via inductive exercises, which support them in their grasp of both form and meaning. The structures are then practised through a sequence of exercises in which students learn how to apply them in motivating and communicative activities.

Adolescents and teenagers do not always find it easy to participate in speaking activities, especially when they are asked to say what they think and feel. *Think* takes this concern seriously. Based on research in teenage classrooms in many different countries, the authors of *Think* have found that adolescents and teens generally find it easier to engage in thinking activities if they are embedded in the framework of topics and texts that they can emotionally connect with, and especially those that are far from their day-to-day realities. This remoteness gives students the opportunity to look outwards rather than inwards, and in so doing feel less self-conscious. So in the first few levels of the course, units often start somewhat removed from students' own lives, presenting stories of extremes, set in faraway places and cultures but whose protagonists – the heroes and heroines of these stories – young people can identify with. This helps them to get in closer touch with inspirational human qualities such as creativity, courage, perseverance, passion and care, and makes it easier for them to get involved in the speaking activities leading into or following the texts; this in turn makes their learning much easier, quicker and more pleasant.

Based on educational principles

Piaget (1981:3) asserts that all learning involves states of 'pleasure, disappointment, eagerness, as well as feelings of fatigue, effort, boredom'. The transition period from adolescence to early adulthood offers its own additional emotional challenges, as it is characterised by the individual's struggle for identity. During this period, many teens are overwhelmed by their emotions, and these can

exert a strong influence – both positive and negative – on their behaviour and their attitudes. The integration of both emotional qualities and cognitive processes is key to the successful development of students' cognition, their understanding of the world, and their development towards becoming responsible human beings.

Think supports you as a teacher in helping your students integrate their emotional reactions and cognitive processes. It achieves this through an invaluable and comprehensive support system aimed at systematically developing your students' thinking skills, their awareness of values and their self-esteem, whilst at the same time building their language skills and competencies. This in turn will increase students' awareness of the issues that are important to their present and future lives, deepen their understanding of important social and global issues, and enable them to become more caring and thoughtful young adults.

TRAIN TO THINK

At the lower levels, *Think* focuses on building basic cognitive tools, i.e. capabilities that are required for the development of so-called higher order thinking skills that will be addressed later on in your students' English language development. Examples of such basic thinking skills include Comparing and Contrasting, Categorising, Sequencing, Focusing Attention, Exploring Space, Time and Numbers and Understanding Cause and Effect.

The higher levels of *Think* focus on the development of more advanced thinking skills. The B2 and C1 levels guide students in developing critical thinking skills. According to Cottrell (2011), these include such things as ascertaining the extent to which we believe what we see or hear, determining whether something is true, arguing one's case, identifying when further information is required and selecting information for a given purpose.

The activities in the books have been carefully designed to offer an appropriate level of challenge, taking into account the fact that students are tackling/approaching them in a language they are still learning and not in their own.

THINK VALUES

Values are what we need to guide us through our life and to inform the way in which we interact with others. They are crucial for young people. Parents, teachers, schools and societies have an obligation to and an interest in, conveying positive values to the next generation.

Teaching values is undoubtedly a challenging task. Telling teens how they should or should not behave is rarely the most efficient way of inculcating the right values in your students. It might be more promising for you to model the behaviour you want to evoke in your students. So, for example, if we want our students to become empathetic listeners, we need to demonstrate what it means to be a good listener; we ourselves need to listen to them empathetically. Other important elements in promoting positive values in

the classroom are: a supportive and encouraging learning atmosphere; and a positive rapport between you and your students. Moreover, exposure to emotionally engaging content (stories) and motivating activities that involve the exploration of important universal values and making them their own, further enables students to increase their awareness of and understand the importance of values, and ultimately, adapt their behaviour accordingly. This is where Think offers you significant support, as it gives your students many opportunities to reflect on and discuss a wide range of important values, including ethical, environmental, health-oriented and artistic ones.

THINK SELF-ESTEEM

As many teachers have noticed, a lack of self-esteem and self-worth can lead to an attitude of defensiveness in teenage students. This frequently observed pattern can lead to serious behavioural issues that are usually very difficult to deal with, such as students failing to take responsibility for their own actions, bullying and threatening others, withdrawing from work, daydreaming, or even giving up study altogether.

Studies show that attempts to try and help students build their self-esteem by repeating affirmations, for example, tend to fail or even result in the exact opposite. Goodman claims that 'the quest for greater self-esteem can leave people feeling empty and dissatisfied'. (op cit, p. 27) and stresses (op cit p. 28) that 'a far better way to bolster your sense of self-worth is, ironically, to think about yourself less. Compassion toward others and yourself, along with a less

self-centred perspective on your situation, can motivate you to achieve your goals while helping you weather bad news, learn from your mistakes and fortify your friendships.'

And this is exactly what the activities in *Think* labelled *Think Self-Esteem* are for. They help students reflect on their role in society, their attitudes and those of others. It encourages them to learn from their mistakes, and develop an insight into their own thinking (meta-cognition) – all important stepping-stones towards building a strong sense of self-worth and self-esteem.

Unit and Topic area	Critical Thinking	Values	Self-esteem
1 Life plans	Reading between the lines [Making inferences]		Life changes [A sense of purpose: positive and negative effects of changes]
2 Hard times	Following an idea through a paragraph [Intensive reading]	Animal rights [Moral values: how we treat other species]	
3 What's in a name?	Identifying the main topic of a paragraph [Understanding gist]		People and their names [A sense of identity: the importance of one's own name and others' names]
4 Dilemmas	Thinking of consequences [Decision making]	Doing the right thing [Social values: the effects of one's decisions]	
5 What a story!	Thinking about different writing styles [Rhetorical questions]		A better world [A sense of purpose: how to improve the lives of others]
6 How do they do it?	Understanding what's relevant [Coherence in texts]	Life changes [Interpersonal values: understanding the concerns of parents]	
7 All the same?	Thinking outside the box [Creative problem-solving]		Stereotypes [A sense of identity: reflecting on preconceived ideas about people or groups]
8 It's a crime	Thinking about empathy [The ability to see the world through other people's eyes]	Respecting the law [Social values: the link between offence and punishment]	
9 What happened?	Fact or opinion? [Seeing the difference between facts and opinions]	Thinking carefully before you act [Personal values: the effects of not thinking ahead]	
10 Money	Exaggeration [Detecting exaggeration when it occurs]		What's important for your future? [A sense of purpose: establishing goals]
11 Help!	Understanding cause and effect [Proving that one thing leads to another]		Offering and accepting help [A sense of identity: understanding that accepting help from others is not a sign of weakness]
12 A first time for everything	Logical conclusions [Understanding the connections between arguments and conclusions]	Breaking new ground [Social values: winning vs. taking part]	

USING THE STUDENT'S BOOK

The first reading sets the scene for the unit ...

6 HOW DO THEY DO IT?

OBJECTIVES ←

FUNCTIONS: talking about sequence, explaining how things are done

GRAMMAR: present and past passive (review); have something done; future and present perfect passive (review)

VOCABULARY: extreme adjectives and modifiers; make and do

Objectives, focusing on skills and language, are clearly displayed. These signal to you and your students what you can expect to achieve by the end of the unit.

Pre-reading activities activate students' prior knowledge, get them interested in the topic of the text and provide a tool for pre-teaching key vocabulary.

Reading texts are about contemporary topics that teens can relate to. They span a range of genres from magazine articles and blogs to webchats and product reviews.

READING

- 1 **SPEAKING** Work in pairs. Discuss these questions.
- 1 What magicians can you name?
 - 2 What magic tricks have you seen?
 - 3 Can you do any tricks yourself? What are they?

- 2 Read and listen to the article about Dynamo. Which four of his tricks does it mention?

3 **READING** Read the article again and match sentences a–g with spaces 1–6. There's one extra sentence which doesn't belong in the text. Then listen and check.

- a He won a few local and national Magic Circle championships.
- b This wasn't the first time Dynamo had amazed the people of London.
- c The man was walking on water!
- d Was he going to throw himself in?
- e His grandfather was a keen amateur magician and taught Stephen many of his tricks.
- f Dynamo refuses to tell anyone how he does his tricks.
- g Was he really walking on air?

TRAIN TO THINK

Understanding what's relevant

To write a good text, a writer must make sure that each sentence is linked to what comes before it. Understanding how this is done will help you to do tasks like Exercise 3.

- 4 Choose the sentence which *doesn't* have any relevance to the first.

- Dynamo has a TV series.
- A It's watched by millions of people.
 - B Lots of famous guests appear on it.
 - C TV is popular with teens all over the world.
 - D It's been running for three years now.

- 5 Work in pairs. Use this sentence to make a similar task for your partner.

- Dynamo has amazed the people of London twice.
- A _____ C _____
 - B _____ D _____

Walking on air

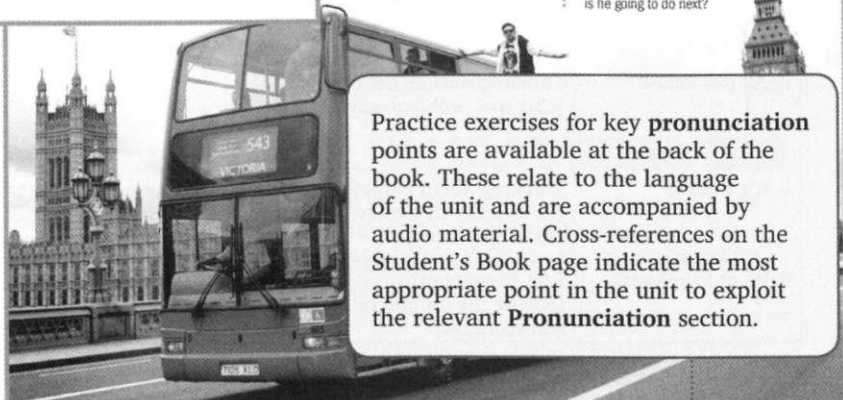

Two men walking by the River Thames were a little concerned to see a young man go down some steps to the edge of the river and look thoughtfully across to the other side. More and more people gathered on the bridge to see what was going on. And then, to their complete disbelief, he lifted up his foot and stepped onto the freezing water. He didn't sink! Then he took another step, and another, and another.

leaving a huge crowd of amazed spectators. Of course, hundreds of photos were taken by onlookers and the next day newspapers were full of the fascinating story.

Dynamo is the stage name of Stephen Frayne, who was born in the northern English town of Bradford. As a child, Stephen visited New Orleans and saw street magicians for the first time. It was then that Stephen knew he wanted to be a magician when he grew up. He

Each sequence of exercises helps students to unlock the text. First, learners read either for gist or to check predictions. Then they re-read for more detailed understanding.

The reading text is also available for students to listen to. This provides you with greater flexibility in how you approach the text. The audio also helps to focus students' attention on the sounds of the language.

Practice exercises for key pronunciation points are available at the back of the book. These relate to the language of the unit and are accompanied by audio material. Cross-references on the Student's Book page indicate the most appropriate point in the unit to exploit the relevant Pronunciation section.

SPEAKING

- Work in pairs. Discuss these questions.
- 1 How do you think Dynamo walked on water?
 - 2 Why do you think people enjoy magic tricks so much?

Pronunciation

The /ɜ:/ phoneme
Go to page 120.

... before exploring core language and developing listening skills.

VOCABULARY

Phrasal verbs (2)

1 Find the phrasal verbs in the article on page 111. Match them with the definitions.

blow out | break down | sort out
 carry out | look into | stand out
 work out | look forward to

- be easy to notice
- be happy or excited about (a future event)
- do, complete
- investigate, examine the facts about (a situation)
- fix (a problem)
- use air to stop (something) burning
- stop working
- understand, find the answer to

Lexical sets are presented with clear visuals to support immediate understanding of new vocabulary items.

Complete phrasal verbs

- The wind *blow* out the birthday cake.
- The concert is tomorrow. I'm really *excited*!
- Mum was driving to work when her car *broke* down.
- There was a bank robbery last Saturday. The police are *investigating*.
- She's our best player. She really *stands* out in the team.
- This question is really difficult. I can't *work* out the answer.
- The doctors are *doing* tests to find out what's wrong with him.
- My best friend and I have a problem, but I'm sure we *will* sort it out.

Cross-references indicate where in the Workbook you can find further practice of the grammar and vocabulary covered on this page.

GRAMMAR

Phrasal verbs

1 Look at these sentences from the article on page 111. In which ones does the object go

Put the words in order to make sentences. When there are two possible orders, write both.

- answer / the / I can't / work / it / out
I can't work out the answer.

Examples of the target grammar are taken directly from the reading text. Language is therefore introduced in context, making it more meaningful for students. Following language presentation, students are encouraged to personalise target grammar or vocabulary.

They're looking into it.
 NOT *They're looking it into.*

Other phrasal verbs can be separated. We can put an object between the two parts or after the second part.

He sorted the problem out.
 OR *He sorted out the problem.*

When we use a pronoun (him, it, etc.) with a phrasal verb that can be separated, it must go between the two parts of the verb.

He sorted it out.
 NOT *He sorted out it.*

How do you know if a phrasal verb can be separated? Use a dictionary to look it up!
 look sth up → it can be separated
 look into sth → it can't be separated

- What would you do if your bus from where you were going?
- What are you next to?
- Where do you like to go?
- What problems do you need to solve?
- Do you enjoy watching animals?

The listening section follows established procedure: a pre-listening activity, a listening-for-gist task and an activity which tests understanding at a deeper level.

FIRST TIME FOR EVERYTHING

LISTENING

1 **SPEAKING** Work in pairs. In what order do you think these Internet innovations happened?

Think Values invites students to consider their broader opinions and values through reflection on the reading text. Expressing opinions in pairs/groups provides support, while also offering extra fluency practice.

THINK VALUES Listen to Sally's class presentation about the history of the Internet. Check your answers.

Listen again. Complete the notes.

- | | |
|---|---|
| 1 The first website
When?
About? | 6 The first item bought on Amazon
What? |
| 2 The first email
When?
Sent to? | 7 The first sentence spoken on Skype
When? |
| 3 The first Facebook account
Number?
Who? | |
| 4 The first YouTube video
What?
Number of hits? | |

THINK VALUES

Breaking new ground

- Match the people 1-5 with their achievements a-e.
 - Neil Armstrong
 - Nelson Mandela
 - Yuri Gagarin
 - Kathryn Bigelow
 - Marie Curie
 - was the first female director to win an Oscar.
 - was the first man on the moon.
 - was the first woman to win a Nobel Prize.
 - was the first man to travel in space.
 - was the first black president of South Africa.

THINK VALUES Work in pairs. Discuss these questions.

- What other things do we use?
- What question would you ask?
- At the end of her presentation where it's going next? What Internet innovations?

Regular opportunities for personalisation, for developing students' spoken fluency and for promoting collaboration between students through pair and group work appear throughout the unit. Look for **SPEAKING**.

The second reading text introduces a new language focus.

Students are guided through established reading skills procedure of predicting (Exercise 1), reading for gist (Exercise 2) and reading for detailed understanding (Exercise 3).

READING

- Look at the photos. Do you recognise these fairy tales? Do you know their names in English?
- Read the article quickly. Who are the Brothers Grimm?

Hollywood fairy tales

Red Riding Hood isn't the only film to go back to the classic fairy tales and update them for today's teenagers. *Hansel and Gretel*, *Witch Hunters*, *Jack the Giant Slayer* and *Snow White and the Huntsman* are also hoping they can persuade young people to revisit the stories of their childhood. And then there's *Brothers Grimm*, starring Matt Damon and Heath Ledger, which sees the original authors of many of these fairy tales come face to face with some of their characters. Hollywood, it seems, has realised that fairy tales have the potential to make money, and lots of it.

Teenagers are one of Hollywood's most important markets and after the success of series like *Harry Potter*, *Twilight* and more recently *The Hunger Games*, film studios are looking for more inspiration for stories to keep young people returning to the cinema. Fairy tales might just be the answer. Many are already quite dark, often ideal for adolescent horror, and romance heroines, have been brought to the screen. But with modern-day settings, they bring it all to life, and make them ideal for adolescents.

Little *Red Riding Hood* used to be just a story that parents would read to their children at bedtime, but not any more. Now *Red Riding Hood* is a Hollywood blockbuster directed by Catherine Hardwicke. Hardwicke directed *Twilight*, which made her the obvious choice for another film so clearly aimed at the teenage market.

Catherine Hardwicke has made several films for teenagers. *Brothers Grimm* shows how the Brothers Grimm are still relevant. Films based on fairy tales have Teenagers are often interested in fairy tales. When you compare the films to famous writers meet the heroes turned out to be extremely evil, in characters that are evil, a name for herself as a director that remind young people of the stories they are based on, you will notice that successful comedies and villains of angry or unhappy.

GRAMMAR
Relative clauses with *which*

- Complete these sentences from the page 52. Add commas where necessary. *which* refers to in each of the sentences. Complete the rule.
 - Hardwicke directed *Twilight* her the obvious choice for another film clearly aimed at the teenage market.
 - Many [fairy tales] are already quite dark makes them ideal for adolescents.

WHAT A STORY!

Each unit includes two **vocabulary** sections in addition to two **grammar** sections. Lexical sets are related to the topic of the unit and so can be understood, practised and applied in a meaningful context.

VOCABULARY
Elements of a story

- Match the words with their definitions.
 

plot : setting : hero : character
opening : ending : villain : dialogue

 - the story of a film, play, etc.
 - a person in a story
 - the last part of a story
 - the main (usually good) character in a story
 - a character who harms other people
 - the words that the characters say to each other
 - the beginning of a story
 - the time and place in which the action happens

WRITING
A fairy tale
Think of a fairy tale and write the story (200 words).
• the ordering of the story.
• how to use a good selection of past tenses.
• how to bring the story alive with adjectives and adverbs.
Don't forget: fairy tales start with *Once upon a time*, ...

EXERCISES

- Work in pairs. Discuss these questions.
 - What fairy tales are popular in your country?
 - Do you agree that many teenagers are interested in the 'dark' side of life? Why? / Why not?

EXERCISES

- Join the pairs of sentences using *which*.
 - I often play the drums on Sunday mornings. This annoys the neighbours. I often play the drums on Sunday mornings, which annoys the neighbours.
 - She's lost all her money. This means she'll be in trouble. She's lost in trouble.
 - Nobody in class learned the new words. It was frustrating for our teacher. Nobody in class for our teacher.
 - Fairy tales have been turned into successful teen films. This has surprised many people. Fairy tales many people.
 - It's quite amazing that Stephen King manages to write several books per year. Stephen King quite amazing.
 - It's fascinating that almost all of his books have been made into films. Almost all of his books fascinating.

Photos and illustrations act as a visual hook for teens. They also provide a springboard into the text itself: motivating students to read the text, getting them to predict content and often illustrating meaning of key vocabulary.

Students can discover the rule for themselves, via an inductive approach to learning grammar, with the help of scaffolding. This supported approach continues through to the grammar practice stage, which always begins with a controlled task.

Be aware of common errors related to *much* and *many*, go to Get it right on Student's Book page 122.

These cross-references, which appear in the Teacher's Book, indicate appropriate points in the unit to exploit the Get it right section at the back of the Student's Book. Get it right provides exercises to help students avoid common errors as identified in the Cambridge English Learner Corpus.

The Cambridge English Corpus is a multi-billion word collection of real-life written and spoken English. It includes the Cambridge Learner Corpus, the world's largest collection of learner writing, comprising more than 50 million words of exam answers written by students taking Cambridge English exams. We carefully check each exam script and highlight all errors made by students. We then use this information to see which words and structures are easy and difficult for learners of English, and ultimately, work out how best to support and develop students.

In units 1, 4, 7 and 10 you'll find the photostory ...

Each episode of the **photostory** involves the same four British teens but is a complete story in itself.

Each story begins with several photos and accompanying text. Students can also listen as they read.

The four friends from left-to-right: Flora, Mia, Jeff, Leo.

The nerd

Look at the photos and answer the questions.

Who are they all talking about?
What do you think Flora's problem is?

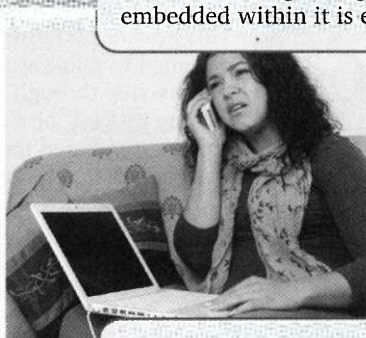

Now read and listen to the photostory. Check your answers.

JEFF Don't look now, but Richie Ford's sitting behind you.
LEO Let me guess: he's doing something on his computer.
JEFF Got it in one.
LEO He spends all day on that thing.
JEFF I know. Hasn't he got a life?
FLORA Pack it in, you two. You're being mean.
MIA Yeah, and he can probably hear what you're saying.
JEFF No, it's all right. He's got his earphones in. He's such a nerd.
FLORA Oh, come on, Jeff. That isn't nice.
JEFF I didn't say there's anything wrong with being a nerd.
MIA No, but that's what you meant.
JEFF No, it isn't.
FLORA Then why use that word?
MIA Just because he's into computers and he wears glasses. It doesn't mean he's a nerd.
LEO I'm with you on this one, Jeff.
MIA What does that mean exactly?
LEO Don't get me wrong. I've got nothing against nerds. After all, my brother's one! But Richie Ford is most definitely a nerd.
JEFF Yeah, all we're saying is that he should get off the computer.
FLORA And he's sitting behind me.
JEFF Well, you're sitting behind him.
FLORA I know. He's sitting behind me.
LEO That isn't a computer.
FLORA Some people think it is.
MIA Boys. This is a computer.

Students predict the ending of the story before they watch. This increases motivation and makes understanding easier.

See how the story concludes in the video found on DVD or class presentation software. The video picks up precisely where the photostory ends.

Further comprehension questions guide students through the story at a deeper level before target language embedded within it is explored.

Phrases for fluency focuses on authentic language that students can use in conversation to make them sound more natural and fluent. They see these phrases in context and at a level graded for them in the photostory.

Role-plays give students the chance to practise target language in a freer context – while still being provided with essential scaffolding via instructions, ideas and/or key stems. The role cards are at the back of the book.

DEVELOPING SPEAKING

Work in pairs. Discuss what happens next in the story. Write down your ideas.

We think Flora asks Richie to fix her computer.

Watch and find out how the story continues.

Answer the questions.

Who ...

- fixes Flora's computer?
- invites Flora to go climbing?
- decides not to go climbing?
- is late for the first lesson?
- is climbing the wall when they arrive at the sports centre?

PHRASES FOR FLUENCY

Find these expressions in the photostory. Who says them? How do you say them in your language?

- Got it in one.
- Pack it in.
- I'm with you on this one.
- Don't get me wrong.
- Good point.
- Don't mention it.

Use the expressions in Exercise 1 to complete the conversation.

TOM Did you use my laptop without asking me?
MIKE No, I didn't.
TOM Well, I think you did. Dad, can you please tell Mike to ask first?
DAD 1. I want everyone in the car in five minutes.
TOM Where are we going? Shopping?
DAD 2.
TOM Again?! Do we have to?
MIKE 3. Tom. Can't we stay at home? We'll only moan and make life difficult for you and Mum if we come.
DAD Actually, that's a 4.
MIKE I mean, 5. It isn't that we don't like being with you and Mum ...
DAD No, you two can stay behind and tidy up the house.
TOM Oh, great. Thanks, Dad!
DAD 6. And no fighting!

WordWise

Phrases with all

Complete these sentences from the photostory with the expressions.

WordWise takes a word or phrase which has a number of different meanings in English and provides analysis and practice using them.

Replace the underlined phrases with

Key phrases for a particular speaking function are explored in the **Functions** section. Students have the opportunity to practise these in the context of a communicative task.

FUNCTIONS

Invitations

Complete the sentences with the words in the list.

- about | would | count | don't | fancy | love | course
- Why you come along?
 - How bringing some friends along with you?
 - Do you coming along?
 - That be fantastic. I'd to.
 - Yes, of It's a great idea.
 - You'll have to me out.

Work in pairs. Student A: turn to page 127. Student B: turn to page 128.

Intonation – inviting, accepting and refusing invitations
Go to page 121.

... and in units 2, 5, 8 and 11, a culture text.

The focus of the Culture section is on getting students to think and talk about life in other countries and how it compares with their own.

This reading is also available for students to read and listen to.

Here, students have the opportunity to develop their ability to deduce meaning from context and increase their receptive vocabulary.

Culture

1 Look at the photos. What do you think these men escaped from? How do you think they did it?
2 Read and listen to the article. Check your answers.

THE GREAT ESCAPE

After many tragedies, there are always stories of people who have shown an amazing ability to survive. Here are two stories which remind us that miracles can happen.

On 5 August, 2010, the San José copper and gold mine in the Atacama Desert in Chile collapsed and 33 miners were trapped underground. The mine had a poor safety record, and there were fears that the trapped men wouldn't come out alive. A rescue team immediately began digging into the ground where it was thought the men might be. On Day 17, when the drill was brought out of the ground, there was a sore tapot to it, in bright red letters it read: 'We are alive and well in the shelter, all 33 of us.' It was the news the whole country had been waiting for and the Chilean government promised to bring them out alive. For the next seven weeks, rescue teams from all over the world worked together to drill a hole big enough to bring out the men, who were waiting 700 metres below the ground. It was a long, difficult and dangerous job, but on 13 October, more than a half a million people around the world watched live on TV as the first of the miners was finally brought above ground. Twenty-four hours later, the last miner, number 33, was reunited with his family and friends.

In June 2013, a rescue diver was swimming through the wreck of the tugboat Jason 4 when he got an enormous shock: a hand reached out and grabbed his leg. The ship had sunk two and a half days earlier and was now lying 30 metres below the surface of the water. The diver, who was part of a team looking for the bodies of the 13 crew members, hadn't expected to find anyone alive. But one man had managed to survive. Twenty-nine-year-old Harrison Okene from Nigeria was the ship's cook. When the ship got into trouble in rough seas and started turning over, Okene found an air pocket and put his head in it. As the ship sank towards the sea floor, he expected the pocket to fill with water, but it didn't. Despite the freezing water and having nothing to eat or drink, Okene had enough air to breathe. There was nothing he could do except wait. Sixty hours after the ship went down, Okene heard knocking and knew that rescue teams had entered the ship. He still wasn't safe, and a complicated plan was needed to bring him slowly to the surface. Unfortunately, none of the other crew members survived. But for one man, the tragedy had ended with a miracle.

3 Read the article again. What do these numbers refer to?

6	7	The number of weeks the miners were trapped underground.	
1	13	3	29
2	17	4	30
		5	33
		6	40

4 **EXERCISE** Work in pairs. Discuss these questions.
1 What do you think these people did while they were waiting to be rescued?

5 **VOCABULARY** There are seven highlighted words or phrases in the article. Match them with these definitions.

- a space where water doesn't get in
- the history of accidents at a place
- gone down in the water
- a terrible event that often kills many people
- an amazing event that almost seems impossible
- an instrument that makes a hole in the ground
- what's left of a car, ship, plane, etc. after a crash

WRITING

A story about a rescue

- Read the story. Answer the questions.
 - Why did the boy and his friends walk across open land?
 - How long did the rescue take?
 - Why did he need to go to hospital?
 - How did his mother feel about the rescue?
- Complete the story with the words.

later | and | after | but | which | where | because
- The story has four paragraphs. Which of them:
 - gives details about how the accident happened?
 - gives people's reactions to the accident?
 - gives a summary of the whole event?
 - describes how the accident was dealt with?
- Think of a rescue that you know about or invent one. Write a story (200 words). Think about:
 - who was involved in the accident and the rescue
 - any special words that you will need to talk about the accident. (Use a dictionary to help you.)
 - how to organise the information into paragraphs
 - how to make the story dramatic.

1 In March 2014, 14-year-old Za'Quan Clyburn from North Carolina, USA, was rescued. He got trapped in mud. He was being prepared for building. Za'Quan walked down a hill towards a large pool of water. He thought the ground was solid, but it was mud. He sank into it and couldn't get out. The mud went up to his chest and then almost to his chin.

2 Za'Quan was walking home with some friends. To save time, they walked across some open land. He was being prepared for building. Za'Quan walked down a hill towards a large pool of water. He thought the ground was solid, but it was mud. He sank into it and couldn't get out. The mud went up to his chest and then almost to his chin.

3 One of his friends called 911. Fire fighters arrived and started to work to get Za'Quan out. It took 24 people about half an hour to free him. Za'Quan was extremely cold and in shock, and his legs were very painful. An ambulance took him to hospital. He was kept for two days.

4 One of the fire fighters said, 'The outcome could have been much worse, but fortunately he came through it OK.' The boy's mother said that she was really grateful to the people who had worked so hard and risked their lives to save her son.

This extended writing section, designed to guide students step-by-step through the writing process, also appears in even-numbered units. A writing task is set in all units.

Students are presented with a model text for analysis of task purpose, and for presentation and practice of useful language before they move on to produce their own compositions. The final task is closely modelled on the type of tasks which appear in the Cambridge English: Key writing test.

This text, taken from Cambridge Graded Readers, gives you the opportunity to introduce your students to English-language fiction. Comprehension questions and follow-up discussion questions help students to understand and engage with the text.

Fiction

1 Read the introduction. What kind of story do you think it is?
2 Read and listen to the extract. Check your answer.

How I Met Myself by David A. Miller

One icy winter's evening in Budapest, a man runs straight into John through the narrow streets. John falls over into the snow and looks up at the man's face. He felt very afraid. Because what I saw was me. My face looking down at me. My mouth saying sorry. Who is the man, and how will John's life change?

I was walking home from my office one January evening. It was a Monday. The weather was very cold, and there were some low clouds around the tops of buildings. Once I'd left the main road, there weren't many people in the dark, narrow streets of Budapest's Thirteenth District. Everything was very quiet. It felt as if the city was waiting for something.

As I walked I thought about what had happened at work. I had argued with one of the Hungarians I worked with. It was the first serious problem I had had since I'd arrived. I was trying to think what to do about it, and I was also hoping that my wife, Andrea, had made one of her nice, hot soups for dinner.

After about five minutes it started to snow heavily, so that the streets were soon completely white. As I was walking along a very dark part of one street there was the noise of a door shutting loudly inside a building. Then I heard the sound of someone running.

Suddenly the street door opened and a man came out of it and ran straight into me. I fell over in the snow, shouting something like: 'Hey, watch where you're going!' - my words were loud in the empty street. The man turned to look at me for a moment. 'Sorry,' he said very quietly, in Hungarian, before walking away quickly.

What I saw at that moment, in that dark winter street was very strange, and I felt very afraid. Because what I saw was me. My face looking down at me. My mouth saying sorry. I...

I lay there in the snow for a few moments, trying to understand what had just happened. My first thought was, 'Where has the man gone?' I looked along the street and was just in time to see him turning right at the next corner.

I got up immediately, brushed the snow off my clothes and ran after him. He crossed the road and went into another street. When I got to the corner I saw him going into a doorway. I walked quickly along the empty street, and found it was the entrance to a wine cellar. It was under a block of flats, and you had to go down some steps to get in. I...

I stood in the snow for a moment, deciding what to do and looking around me. I had a strange feeling about going down into the wine cellar. I wasn't sure who I'd find there. I looked at my footprints - the dark marks my feet had made in the new snow. My footprints... But only my footprints! Where were his? I looked back along the street. There were only my footprints.

The Culture text is primarily exploited for its informative rather than linguistic content. Students are encouraged to respond to the text and relate it to their own experiences and cultures.

Fiction appears in units 3, 6, 9 and 12.
