How to Use This Book

Ebridge Alphabet is designed to provide a fun and easy way for very young learners to master their ABCs. Full of chants, activities, stickers, coloring, and games, the series will enchant young learners and make their important first experiences with English exciting and enjoyable.

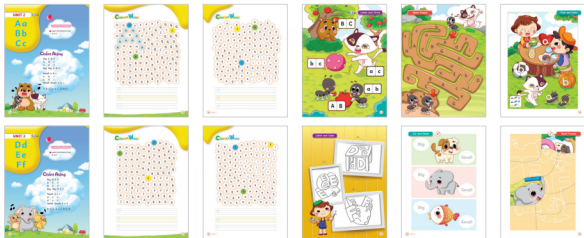

Student Book

Each book in the series is divided into four Parts, with each Part focusing on different letters of the alphabet. Through the five units in each Part, the letters are introduced and thoroughly practiced, both in isolation and in common words in which they appear. Students build familiarity with the names and sounds of these letters and how to write them through a wide variety of different activities that keep learning engaging.

UNIT 1 introduces all of the letters and some common words in which they appear. Students learn the name of the letters and how to form them, with finger-tracing and copying. Fun activities and stickers augment and reinforce learning.

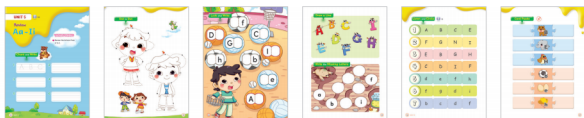

UNITS 2, 3, and 4 focus on groups of letters separately and common words they appear in. Chants and activities review and reinforce the material introduced in the first unit, and expand on it with practice in distinguishing the letters.

UNIT 5 is dedicated to reviewing and consolidating learning. Through fun activities, puzzles, and games, students get more practice with the letters and review common words they appear in.

Digital Materials

The series comes with a CD-ROM of digital learning tools to make classes easier to run for teachers and more dynamic and engaging for students. In addition to the full audio to accompany the student-book activities, the CD-ROM has many fun, interactive multimedia activities and an assessment for each Part of the book.
