UNIT OVERVIEW

★ Student Book

Big Question

This helps the teacher to get students thinking about the topic and understand what they are about to learn. It's a great preview activity for students to start learning vocabulary.

Read

Realistic fiction passages explore a large range of interesting topics rooted in nonfiction concepts. This helps students smoothly transition from fiction reading to nonfiction reading. All of the words in the reading are leveled and controlled so that students can gradually and steadily improve their reading ability. Key words are highlighted, and phonics concepts are presented with red text to help students focus on the main learning objectives of each unit. The last sentence of each passage is a fun, natural English expression that students learn in the context of the passage and can use in real life in the appropriate context.

Key Words

Key words build students' core vocabulary around the topic of each unit. Students can use the key words along with the grammar pattern to read, understand, and speak about the topic.

Phonics Words & Sight Words

Phonics and sight words are selected to develop students' reading fluency. Phonics words help students review phonics rules and help them transition from emergent to early-level reading ability by reviewing, comparing, and contrasting phonics sounds. Sight words help students quickly recognize whole words and their meaning.
