How to Use This Book

Each unit in the *Reading Table* series includes eight parts plus additional review and consolidation activities in the workbook. These parts work together to get students thinking about the unit's topic, lead students through a reading passage, check students' comprehension of the reading passage, and then have students practice basic listening, organizing, and writing skills in English. A summary of each section is presented here.

Student Book

Warm-Up

includes two questions to stimulate students' interest about the topic. Sample responses for all Warm-Up questions are provided in the answer key for each book.

New Words

lists key vocabulary for each unit. Student match the words with photographs and sentences that provide context for the words.

Reading

alternates between original stories and informative passages linked by topics. An audio recording of each passage is provided. Students can track the words as the passages are read by native speakers.

After hearing the passage read aloud, students should be encouraged to read the passage themselves as a timed reading.

Checking

includes multiple-choice questions: the first focusing on the main idea of the passage and two additional detail questions related to the reading passage.
