Preface

Songs are an essential part of a child's world. They fill up the spaces with happy sounds and funny words. They are a part of special memories. The songs we learned as children stay with us throughout our lives.

Songs are also wonderful teaching tools. Where possible, the lyrics in this book have been modified to make them simple and practical. This makes them easier to learn and also increases their effectiveness for language teaching. Songs not only make learning fun, but they also create a comfortable and colorful atmosphere that helps kids to freely express themselves in ways that simply speaking cannot.

Children can dance, role-play, pantomime, walk like an elephant, and quack like a duck! At home, at school, or just riding in the car, songs bring out the kid in all of us.

Songbirds - 25 Favorite Christmas Carols presents the music and lyrics to 25 Christmas carols. The music can be used to facilitate sing-alongs, or may be used to play an instrument to accompany the songs. Whichever way it's being used, *Songbirds* is a fun and create means of furthering your child's language development.
