# How to Use This Book

Each unit in *Vivid Reading with Fiction Starter* has eight parts, plus additional review after every eight units and consolidation activities in the workbook. These parts work together to lead students from reviewing phonics, visualizing the meaning of target vocabulary, and thinking about the unit's topic to reading a passage and checking comprehension. After reading the passage and completing a comprehension check, students practice writing, review target vocabulary, study the basic sentence patterns used in the passage, and practice listening comprehension and pronunciation. The audio recordings of the passages and the listening activities are provided through QR codes. The function of each section is as follows.

## New Words

Lists key vocabulary along with word tracing and illustrations that provide visual definitions for the words  
Provides a chant to increase students' interest

## Sight Words

Presents a quick interactive activity in which students look for two sight words in the passage

## Phonics Words
