Have you ever communicated with a company on social media?

#### Brief note

## Social Media Managers: FAQ

by Alec Rodriguez

I'm a social media manager for a chain of clothes shops. Since this job is a fairly new one, people often ask me about it. Here are answers to some of the most frequently asked questions.

### Q: What do social media managers do?

A: I manage my company's online communications. I'm responsible for our Facebook page, Twitter and Instagram accounts, and our other social media sites. Every day, I post messages, photos, and videos to create a positive impression of our brand. In addition, I analyse data about which content is most popular. I also monitor and respond to customers' comments, and I research our competitors' social media accounts. Social media managers are important because one study found that almost 75 percent of consumers are more likely to buy from a company that is active on social media.

### Q: What are the qualifications?

A: You must have lots of experience with social media and be willing to work outside of the usual business hours. The internet doesn't close at 5 p.m. every day! You're **on call** twenty-four hours a day, seven days a week. You must also have strong writing skills. Another qualification is to know your audience. For example, my company specialises in clothes for people in their teens and twenties. To do my job well, I need to understand the tastes and attitudes of young people, and keep up with the latest trends. There's one more qualification I should mention: **a thick skin!** As everyone knows, people aren't always very nice online. You must be able to respond to complaints and even insults calmly.

### Q: Is it hard to get a job as a social media manager?

A: Yes, it's a very competitive field. To get a job as a social media manager, you must show companies that you are passionate about things using your own personal social media activity. And you should start now! Be active on several different sites, and create a blog. Make sure your posts are unique, intelligent, and funny. And don't forget to be polite. If you have an unpleasant personality online, potential employers will find out, and it'll hurt your chances of getting a good job.

### 2 Talk about the questions after you read and listen.

1. How important do you think social media managers are for a company's success?
2. The writer says that "people aren't always very nice online." What do you think he means? Can you give any examples?
3. Do you think employers should be allowed to look at people's private social media accounts?

#### Brief note

People with a **thick skin** (thick-skinned people) are not easily upset or hurt if they are criticised. In contrast, people who have a thin skin (thin-skinned people) are easily upset or hurt by criticism.

- 3 Identify the main purpose of this article.

- a. to persuade people to become social media managers
- b. to provide basic information about being a social media manager
- c. to describe the writer's experiences as a social media manager

#### 4 Choose the correct answers.

- Which is NOT part of the writer's job?
  - replying to customers
  - looking at data
  - making sales
  - putting content online
- Why does the writer mention a study?
  - to show that companies benefit from social media managers
  - to show that social media is becoming more popular
  - to show that he has a thick skin
  - to show that he analyses content
- What is implied about the writer?
  - He seldom works at night.
  - He earns a high salary.
  - He studied English.
  - He knows about fashion.
- What does the writer state about the company that he works for?
  - It is new.
  - It has young customers.
  - It sells mobile devices.
  - It is currently hiring.
- What does the writer advise readers to do?
  - be pleasant online
  - apply to many companies
  - complain about online rudeness
  - avoid addition to social media
